NO-PEST

Kills Flying & Crawling Insects
CONTINUOUS PROTECTION

STRIP
DEEP-PENETRATING VAPOR
STRIP

UP TO 4 MONTHS

FOR USE IN UNOCCUPIED AREAS; NOT FOR USE IN HOUSEHOLD AREAS. Do not use in kitchens, restaurants or areas where food is prepared or served. Do not use in homes except for garages, attics, crawl spaces, and sheds occupied by people for less than 4 hours per day. Also for use in the following unoccupied structures, provided they are unoccupied for more than 4 months immediately following placement of product:

- Garages, Storage Units, Attics, Crawl Spaces, Boathouses, Sheds occupied by people for less than 4 hours per day.
- 900-1,200 cu ft, which is about equal to an average room 10' x 13' with an 8-foot ceiling for up to four (4) months. In a larger room, if more than 2,400 cu ft, 2 to 3 additional strips may be required. Treatment usually lasts for the end of four (4) months or when effectiveness diminishes. Do not use in the food/feed areas of food/feed processing or food/feed manufacturing or food/feed service establishments. Non-food/feed areas of these establishments where the product can be used are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, areas of office buildings occupied for less than 4 hours per day, locker rooms, machine rooms, boiler rooms, utility equipment, garages, mop closets, and product storage (after canning or bottling).

HOW TO WORK:

Call your pest control agency or visit our website at www.hotshot.com or call 1-800-917-5431.

STOP READ ENTIRE LABEL BEFORE USE.

Hazards to Humans and Domestic Animals

Avoid contact with eyes or clothing. After prolonged storage, a small amount of liquid may form on strip. Do not get liquid in eyes. Wash clothing after handling. Keep out of reach of children.

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED:

Have person sip a glass of water, if able to swallow. Do not induce vomiting unless told to by a Poison Control Center or doctor. Move person to fresh air. If vomiting occurs spontaneously, call a Poison Control Center or doctor for treatment advice.

Probable mucosal damage may contraindicate the use of gastric lavage. POISONING SYMPTOMS: This product is a mucosal irritant. Symptoms may include coughing, retching, vomiting, sweating, nausea, vomiting, diarrhea, and abdominal cramps. TREATMENT: Atropine is the specific therapeutic antagonist of choice against parasympathetic nervous stimulation. If there are signs of parasympathetic stimulation, atropine sulfate should be injected at 10-minute intervals until symptoms subside. If signs of muscarinic stimulation are present, anticholinesterases (neostigmine) should be given every 2 hours until atropine effects are complete. Gastric lavage and forced diuresis are contraindicated.

IF INHALED:

Clear chest by postural drainage. If there are signs of pulmonary stimulation, epinephrine should be administered. Anticholinesterases should be given every 2 hours until atropine effects are complete. If signs of parasympathetic stimulation are present, atropine sulfate should be injected at 10-minute intervals until symptoms subside. Gastric lavage and forced diuresis are contraindicated.

INHALATION: Clear chest by postural drainage. Anticholinesterases should be given every 2 hours until atropine effects are complete. If there are signs of pulmonary stimulation, epinephrine should be administered. Gastric lavage and forced diuresis are contraindicated.

PROOF OF PURCHASE

Kills Flying & Crawling Insects

STRI P GUARANTEED DEEP-PEN ETARING VAPOR STRIP

INERT INGREDIENTS: ................................................ 80.0%
Related Compounds .................................................. 1.4%

IF YOU ARE NOT SATISFIED WITH THIS PRODUCT FOR ANY REASON, SEND YOUR WRITTEN REQUEST FOR A REFUND TO THE ADDRESS AT LEFT, TOGETHER WITH THE DATED STORE RECEIPT SHOWING THE PRICE YOU PAID. PLEASE ALLOW 6-8 WEEKS FOR PROCESSING.

DISPOSAL: IF EMPTY:

THE CLEAN, ODORLESS VAPOR IS EVENLY DISTRIBUTED THROUGHOUT THE CLOSED TREATMENT SPACE.

Hazards to Humans and Domestic Animals

IF SWALLOWED:

Remove or rinse contaminated clothing before reuse. Do not use in hospitals or clinic rooms, such as patient rooms, wards, nurseries, operating or emergency rooms, unless directed by a physician.

IF INHALED:

Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.

IF IN EYES:

Rinse eyes thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

IF ON SKIN:

Wash skin with soap and water. If irritation occurs, seek medical advice.

IF ON CLOTHING:

Wash contaminated clothing. Do not discard.

NOTE TO PHYSICIAN •

Atropine sulfate is antidotal. If there are signs of atropine deficiency, large doses of atropine sulfate may be given in a single dose or in doses of 1 to 2 milligrams until complete atropinization has occurred. Morphine is contraindicated. 2-PAM is also antidotal and may be used if there is evidence of para sympathetic stimulation. If there are signs of parasympathetic stimulation, atropine sulfate should be injected at 10-minute intervals in doses of 0.5 to 1 milligram until there is complete atropinization. 2-PAM may be used if 2-PAM is available.

HOW IT WORKS:

This product controls flies, gnats, mosquitoes, moths, silverfish, cockroaches, spiders, beetles, earwigs and other insects as listed. Remove from sealed bag and hang or stand, out of reach of children and pets, preferably in entryways of entrances, garages, sheds, and other unoccupied spaces, and enclosed spaces for up to 4 months. The vapor evenly distributes through the sealed bag, killing insects.

DIRECTIONS FOR USE

For use in unoccupied areas; not for use in homes except garages, attics, crawl spaces, and sheds occupied by people for less than 4 hours per day.

Also for use in the following unoccupied structures, provided they are unoccupied for more than 4 months immediately following placement: Vacation Homes, Ranch Houses, Farm Houses, Cabins, Mobile Homes, Boats that are vacation homes, cabins, mobile homes, boats, farm houses, and ranch houses.

For use in unoccupied areas within 10 miles of food/feed service establishments. Non-food/feed areas of these establishments where the product can be used are areas not where food is prepared or served. Do not use in the food/feed areas of restaurants or food/feed processing or food/feed service establishments. Non-food/feed areas of these establishments where the product can be used are areas where food is not prepared or served.

TO WORK, OR?

This product contains the toxic inert ingredient Bis (2-ethylhexyl) adipate (DEHA) at 19.8%.
