**BELLACIDE 355**

This product is effective at controlling microbial growth in waters and on pipe surfaces in fire protection systems. It must be added at a point in the pipeline where uniform mixing will occur. The application must be conducted to ensure total system treatment. It is also effective for inhibiting bacterial growth in closed recirculating systems and on pipe surfaces in transmission systems, irrigation systems, and transmission pipelines and systems, gas storage wells and systems, hydrotesting of pipelines and tanks, pipeline pigging and scraping applications.

**CONTAINS:**
- Tributyl Tetradecyl Phosphonium Chloride 5.0%

**ACTIVE INGREDIENT:**
- BELLACIDE 355

**FIRE PROTECTION SYSTEMS ARE NOT REGISTERED FOR USE IN CALIFORNIA.**

**DIRECTIONS FOR USE CONTINUED:**
- **HYDROTESTING:**
  - This product must be injected at a point such as a riser, manifold or makeup feed water line, where uniform mixing and distribution will occur. Add this product to producing water or feed water to produce a concentration of 100-10000 ppm of this product in the water present in the formation. Injections must be repeated as needed to maintain control.

- **GAS STORAGE WELLS AND SYSTEMS:**
  - This product must be added at a point in the pipeline where uniform mixing will occur. The application must be conducted to ensure total system treatment. It is also effective for inhibiting bacterial growth in closed recirculating systems and on pipe surfaces in transmission systems, irrigation systems, and transmission pipelines and systems, gas storage wells and systems, hydrotesting of pipelines and tanks, pipeline pigging and scraping applications.

- **OIL AND GAS PRODUCTION AND TRANSMISSION PIPELINES AND SYSTEMS:**
  - This product must be added at a point of uniform mixing such as the basin area. Add this product at a point of uniform mixing such as the basin area.

**READER SUGGESTIONS: NOT FOR USE IN ESTUARINE OR MARINE OIL RECOVERY SYSTEMS.**

**NOTICE:**
- **THIS PRODUCT IS ONLY FOR USE IN MILITARY APPLICATIONS.**
- **This product is for use in military applications only.**

**PRECAUTIONARY STATEMENTS:**
**FIRST AID:**
- **In case of contact:**
  - **Eyes:**
    - Have person wear a protective mask before looking in eye. For non-acute cases, flush eye thoroughly with water for at least one minute. Call a poison control center or doctor for treatment advice.
  - **Skin:**
    - Pour large quantities of water over exposed skin. Call a poison control center or doctor for treatment advice.

- **In case of ingestion:**
  - **If swallowed,**
    - Have the person sip a glass of water if able to swallow. Call a poison control center or doctor for treatment advice.
  - **If not breathing,**
    - Call 911 or an ambulance, and then give artificial ventilation (mouth-to-mouth) if necessary. Call a poison control center or doctor for treatment advice.

**INHALATION:**
- **In case of inhalation:**
  - **Eyes:**
    - Have person wear a protective mask before looking in eye. For non-acute cases, flush eye thoroughly with water for at least one minute. Call a poison control center or doctor for treatment advice.
  - **Skin:**
    - Pour large quantities of water over exposed skin. Call a poison control center or doctor for treatment advice.

**ENVIRONMENTAL HAZARDS:**
- **This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into waterways.**

**PESTICIDE DISPOSAL:**
- **Insecticide waste must be disposed of in accordance with the Federal Water Pollution Control Act (Clean Water Act) and the regulations of the Environmental Protection Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.**

**PESTICIDE STORAGE:**
- **Do not contaminate water, food, or feed by storage or disposal.**

**STORAGE AND DISPOSAL:**
- **Do not store in areas where there is a risk of fire or explosions.**

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**KEEP OUT OF REACH OF CHILDREN**
