This pesticide is toxic to fish and other aquatic life. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

Control Center or doctor, or go for treatment.

NOTE TO PHYSICIAN:
• If swallowed, do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to a person breathing.
• Call a Poison Control Center or doctor for further treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

IF INHALED:
• Call Poison Control Center or doctor immediately. Call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for further treatment advice. If person is not breathing, move person to fresh air. If person is not breathing, give artifical respiration.

IF SWALLOWED:
• Add this product at a dose of 2 pounds per 10,000 gallons of pool water. This dose will provide sufficient oxidizer to eliminate most of the contaminants that accumulate in pool water, and will immediately raise the free chlorine concentration by 2 ppm (parts per million) in 10,000 gallons of pool water. It is recommended that levels of 4 ppm chlorine due to risk of bodily injury.

For Pools with Moderate Daily Use:
• Add this product at a dose of 1 pound per 10,000 gallons of pool water. Each pound of this product will raise the free chlorine concentration by 1 ppm in 10,000 gallons of pool water. More frequent and/or higher doses may be required during periods of heavy use or following heavy rains or high winds.

For Pool Opening and Closing:
• Add this product at a dose of 2 pounds per 10,000 gallons of pool water. This dose will provide sufficient oxidizer to eliminate most of the contaminants that accumulate in pool water, and will immediately raise the free chlorine concentration by 2 ppm in 10,000 gallons of pool water. It is recommended that levels of 4 ppm chlorine due to risk of bodily injury.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
• Danger. Corrosive. Causes irreversible eye damage or skin burns. Harmful if swallowed, or absorbed through skin.

• Do not eat, drink, or smoke near the pesticide. Remove all materials from disposal. Do not contaminate food or feed by storage or disposal.

PHYSICAL AND CHEMICAL HAZARDS:
• Do not add water to this product. Add only into water.

STORAGE AND DISPOSAL:
• Keep this product dry in its tightly closed container. Store in a cool, dry, well-ventilated area away from sources of ignition.

Environmental Hazards:
• This product is toxic to birds and aquatic organisms.

Storage and Disposal:
• Do not mix this product with a small amount of water. Only add this product directly to your pool. • Do not allow this product to contact other water treatment products. • Avoid spilling this product to contact other water treatment products, away from this product. • Do not allow this product to contact other water treatment products. • Avoid spilling this product directly to your pool. • Do not allow to become wet or damp before use.

FIRST AID
• Remove contaminated clothing and wash clothing before reuse.
• Open in a well-ventilated area. Do not breathe dust or fumes.
• Keep all foreign matter, including other water chemicals, away from this product.
• Do not add water to this product. Add only into water.
