PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGERS: CORROSIVE. Causes irreparable eye damage and skin burns. May be fatal if swallowed or inhaled. Do not get in eyes, on skin or on clothing. Do not breathe vapor. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Harmful if absorbed through the skin. Wear protective eyewear (goggles or face shield), protective clothing and protective (rubber or chemical resistant) gloves. Wear a respirator with an organic vapor-carbon mixture cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number 455-069), or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-1142) or a NIOSH approved respirator with an organic vapor (OV) cartridge or canister with any P, R or P95 prefilter.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, sewage systems, or any other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE
Do not store on soil. Avoid freezing or impounding of side walls. PESTICIDE DISPOSAL
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for disposal instructions.

CONTAINER DISPOSAL
(For metal containers only) Not recyclable. Container must be rinsed. Do not refill or reuse container. Three rules as follows: Empty remaining contents into application equipment or a mix tank. Fill container 3/4 full with water. Fill container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and do it back and forth several times. Empty the rinseate into the application equipment or mix tank or store rinseate for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill. (For metal containers only) DO NOT cut or weld metal containers.)

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor. If you are not able to get medical attention immediately, wash the exposed area with soap and water and consult a physician.

PHYSICAL AND CHEMICAL HAZARDS
DO NOT USE OR STORE NEAR HEAT OR FLAME!

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

METALLURGIC FLUIDS
To inhibit bacterial and fungal growth add an initial dose of 100 - 250 ppm a.i. to 1.5 to 5.0 lbs. per 1,000 lbs. of CARBOQUAT M50 to the fluid to be preserved and subsequent maintenance doses of 500 - 2500 ppm a.i., every 7 - 10 days or as needed. This product may be added to the fluid at the time it is prepared (diluted) or to the reservoir (sump) containing the fluid after it is put into use. If it is added to the reservoir, the fluid should be circulated after addition, except during filling. Add this product to the fresh fluid according to the above directions. When adding fresh, diluted fluid to compensate for drainoff or other losses, add this product to make-up fluid according to the above directions, CARBOQUAT M50 may also be incorporated by the manufacturer of the fluid concentrate so as to achieve a concentration of 500-2500 ppm a.i. in the diluted fluid. The exact amount of CARBOQUAT M50 to be incorporated will depend on the dilution factor recommended to be used when the concentrate is diluted for use.

CARBOQUAT M50

ACTIVE INGREDIENTS:
Dicyandiamide ammonium carbonate and Dicyandiamide ammonium bicarbonate.

WEIGHT
25 lb. 192.78 kg.

STORAGE
30-59 gal. in a 190205

UN1760 CORROSIVE LIQUID, N.O.S. (N,N-DIACYL-1,3-N-DIMETHYL AMMONIUM BICARBOXYLATE/CARBONATE)
