**PREPARATION OF DISPENSER:** Remove cover from canister and discard covering seal. From center of wipes roll, pull up a wipe corner, thread into a point and thread through the tear hole in the underside of the lid cover. Pull wipe through about one (1) inch. Replace the lid cover on container, assuring a secure fit. Pull out first wipe and snap at a 90° angle. Remaining wipes feed automatically for next use. Always resalve hinged cap after each use to ensure moisture retention.

**DIRECTIONS FOR USE:** It is a violation of U.S. Federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that is (1) introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection. This product is not for use on the inhalation therapy and/or pulmonary diagnostic equipment.

**DISINFECTION:** Thoroughly wet pre-cleaned, hard, non-porous surface with a wipe, keep wet for 2 minutes (5 minutes if fungus is suspected), and allow to air dry. Use as many wipes as needed for the treated surface to remain wet for the entire contact time. Use for as a general disinfectant wipe on hard, non-porous, instrumented surfaces such as:

- Stainless steel, plastic,
- Glass, glass tables,
- Plastic, cabinets, and telephones.
- Countertops, counters, and drawers.
- Equipment carts, supplies, and razors.
- Chairs, cutter blades, and clippers.
- Trash carts, baskets, and bed springs.
- Trash, basins, and sinks.
- Lights switches, and mirrors.
- Cages, and other similar hard surfaces.
- Operating room hard surfaces, and ambulatory equipment and surfaces.
- Bed frames, and external surfaces of medical equipment.

You may use a wipe to pre-clean the surface to be disinfected, but thorough re-wiping with a fresh wipe is required for disinfection. Use on contact surfaces must be followed by a potable water rinse.

**DEODORIZING:** Wipe hard, non-porous surface thoroughly to eliminate odors from bathrooms, fecal matter, urine, bodily fluids, blood, and secretions.

**CLEANING:** To clean surfaces, wipe thoroughly with a fresh wipe, which may be used to deodorize at the same time as cleaning. When used to clean a hard non-porous surface prior to disinfection, a second wipe must be used for disinfection.

**THE ACTIVITY OF MEDLINE MICRO-KILL PLUS Disinfecting, Deodorizing, Cleaning Wipes with Alcohol AGAINST THE HIV-1 (AIDS VIRUS):**

**Medline Micro-KILL PLUS Disinfecting, Deodorizing, Cleaning Wipes with Alcohol completely inactivate the HIV-1 (AIDS virus) on hard, non-porous surfaces when used at a contact time of 1 minute at room temperature (20-25°C).**

**STORAGE AND DISPOSAL:** Store in cool area. Keep away from heat or open flame. Do not reuse wipes. Dispose of used wipe in trash. Contact Disposal: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available.

**PRECAUTIONARY STATEMENTS:**

**Hazards to Humans and Domestic Animals:**

**A** CAUTION: Menscous, temporary eye injury. Do not get in eyes or on clothing. **W** Wash (specific appropriate protective eye wear such as goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Wear disposable latex gloves, gloves, masks and eye coverings, when handling HIV-1 infected blood or body fluids. Avoid contamination of food. Remove and wash contaminated clothing before reuse.

**FIRST AID:**

If in eyes: Hold eye open and rinse slowly and gently with water for at least 15 - 20 minutes. Remove contact lenses, if present, after first 5 minutes, then, continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately and thoroughly with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. Wash contaminated clothing before reuse. WASH THOROUGHLY AFTER HANDLING WIPES.

**FOR USE ON ENVIRONMENTAL SURFACES:**

**ACTIVE INGREDIENTS:**

**Viral:**

- Alkyl (60% C14, 30% C16, 5% C12, 5% C18).......................... 0.12%
- Dimethyldioxy Ammonium Chloride
- Dimethyldioxy Ethyl Benzyl Ammonium Chloride

**Bacterial:**

- Alkyl (60% C14, 32% C12, 8% C10).......................... 0.12%
- Dimethyldioxy Ethyl Benzyl Ammonium Chloride

**Pseudomonadia:**

- Isopropl Alcohol.................................................. 41.58%

**Fungal:**

- OTHER INGREDIENTS:.................................................. 58.18%

**TOTAL:.......................................................... 100.00%

+ Does not include weight of dry wipe.

**NET CONTENTS:** 50 Pre-saturated Wipes 7” x 10” (17.76cm x 25.4cm)

**NET WEIGHT:** 14 oz

**KEEP OUT OF REACH OF CHILDREN:**

**WARNING:**

DO NOT USE AS A BABY WIPES

See back panel for additional precautionary statements.

A non-woven disposable cloth containing a stable, low pH formulated disinfectant and deodorant for use on hard, non-porous surfaces where control of cross-contamination is required.

**Medline Micro-KILL PLUS Disinfecting, Deodorizing, Cleaning Wipes with Alcohol** are effective against the following pathogens in 2 minutes at 20°C - 25°C, on hard, non-porous surfaces when used as directed:

- **Staphylococcus aureus**
- **Pseudomonas aeruginosa**
- **Salmonella enterica**
- **Methicillin Resistant Staphylococcus aureus** (MRSA)
- **Escherichia coli** (S. aureus)
- **Vibrio cholerae** (VRE)
- **Human Hepatitis B virus**
- **Norovirus**
- **Salmonella enteritidis**
- **Shigella**
- **Hepatitis A virus**
- **Hepatitis C virus**
- **Clostridium difficile**
- **Poliovirus**
- **Rotavirus**
- **Norovirus**
- **Vibrio cholerae**

**Kills Pandemic 2009 H1N1 influenza A virus (formerly known as swine flu).**

**Medline Micro-KILL PLUS Disinfecting, Deodorizing, Cleaning Wipes with Alcohol** are effective against the following pathogens in 5 minutes at 20°C - 25°C, on hard, non-porous surfaces when used as directed:

- **Trichophyton mentagrophytes** (Athlete’s foot fungus)

**Areas of use:**

- Hospital
- Intensive care units
- Emergency rooms
- Emergency medical services
- Intensive care units
- Nursing facilities
- Respiratory Therapy
- Health care
- Physician offices
- Exam rooms
- Home care
- Veterinary facilities
- Other similar areas

**Cleaning:** To clean surfaces, wipe thoroughly with a fresh wipe, which may be used to deodorize at the same time as cleaning. When used to clean a hard non-porous surface prior to disinfection, a second wipe must be used for disinfection.

**MEDLINE MICRO-KILL PLUS Disinfecting, Deodorizing, Cleaning Wipes with Alcohol AGAINST THE HIV-1 (AIDS VIRUS):**
