**For cleaning and disinfecting hard non-porous surfaces and non-lacquered metal surfaces in the following spaces.**

**For clinical and non-clinical areas.**

**Nonrefillable container. Do not reuse or refill this container. Wrap excess pesticide, spray mixture or rinsate in plastic, then in puncture-proof bag and dispose of in trash or designated waste disposal area.**

**PELIGRO:**
- Do not spill on concrete or asphalt.
- Do not contaminate water, food or feed by storage or disposal. Keep out of the reach of children.
- Do not contaminate water, food or feed by storage or disposal. If these wastes cannot be disposed of by use according to label directions or by other means permitted by federal, state, and local regulations for infectious waste disposal.

**CONSUMER INFORMATION:**
- Do not spill on concrete or asphalt.
- Keep out of the reach of children.
- Do not use on surfaces that will come into contact with food or beverage products, unless the surfaces are thoroughly cleaned and sanitized with a food-grade sanitizer prior to use.

**STORAGE AND DISPOSAL:**
- Store at temperatures not to exceed 100°F (38°C).
- Keep out of the reach of children.
- Do not reuse or refill this container. Wrap excess pesticide, spray mixture or rinsate in plastic, then in puncture-proof bag and dispose of in trash or designated waste disposal area.

**Disclaimer:**
- The information provided is for general guidance only. It is the user’s responsibility to ensure compliance with applicable laws and regulations. For specific guidance, consult your State Pesticide Office or Environmental Protection Agency.

**FEDERAL REGULATIONS:**
- Use only as directed. Do not apply at a rate that results in runoff or migration to groundwater and surface water.
- Apply only to concrete or asphalt.
- Do not contaminate water, food or feed by storage or disposal. Keep out of the reach of children.
- If these wastes cannot be disposed of by use according to label directions or by other means permitted by federal, state, and local regulations for infectious waste disposal.

**NFPA:**
- Class 3
- Health: 1
- Flammability: 0
- Reactivity: 0
- Special hazards: Health

**FIRST AID:**
- If swallowed, do not induce vomiting unless instructed to do so by a physician or poison control center. If the individual is not unconscious, give 1-2 glasses of water for 15-20 minutes.
- If inhaled, move the individual to fresh air. If breathing is difficult or should stop, supply artificial respiration immediately. If handled, handle with care. If not handled, handle with care.
- If in the eyes, immediately wash out thoroughly with plenty of cool or lukewarm water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. If not handled, handle with care.
- If on the skin, wash thoroughly with plenty of cool or lukewarm water for 15-20 minutes. If handled, handle with care.
- If on the clothing, wash clothing before reuse. If handled, handle with care.

**PHYSICIAN:**
- If swallowed, do not induce vomiting unless instructed to do so by a physician or poison control center. If the individual is not unconscious, give 1-2 glasses of water for 15-20 minutes.
- If inhaled, move the individual to fresh air. If breathing is difficult or should stop, supply artificial respiration immediately. If handled, handle with care. If not handled, handle with care.
- If in the eyes, immediately wash out thoroughly with plenty of cool or lukewarm water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. If not handled, handle with care.
- If on the skin, wash thoroughly with plenty of cool or lukewarm water for 15-20 minutes. If handled, handle with care.
