Poast® herbicide

Supplemental Labeling

For Tall Fescue Growth Suppression to Aid in the Establishment of Forbs or Other Grasses

EPA Reg. No. 7969-58

Active Ingredient:* sethoxydim: 2-[1-(ethoxylimino)butyl]-5-[2-(ethylthio)propyl]-3-hydroxy-2-cyclohexen-1-one* .......................................................... 18.0%
Other Ingredients: ........................................................................ 82.0%
Total: .......................................................................................... 100.0%
* Equivalent to 1.5 pounds of sethoxydim per gallon.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. This labeling must be in the possession of the user at the time of application.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. DO NOT apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

APPLICATION INSTRUCTIONS
Apply Poast® herbicide to actively growing tall fescue after it has 4 to 6 inches of new growth, before the emergence of seedheads and before conifer bud break. Applications made from July 1 to mid-August may be less effective, especially if day temperatures reach 90° F. Tall fescue must be 1-year old before the first application of Poast.

Adequate coverage of the leaf surface is necessary for absorption of this herbicide. Thus, for optimum control, DO NOT mow tall fescue turf for 30 days before or 14 days after applying Poast.

Rate: Apply 1.0 to 1.25 pints of Poast per acre. For greater fescue suppression, up to 2.5 pints of Poast per acre can be used. Because of environmental differences at application and growth, differences of tall fescue control may exceed or fall short of that desired.

Begin treating crops with Poast at the minimum recommended rate and adjust rates as local conditions and experience dictate. Additional applications may be made if extended growth suppression is desired.

Additives
Always add two pints of oil concentrate per acre.

RESTRICTIONS AND LIMITATIONS
Avoid all direct or indirect contact with any desired grass crop unless otherwise recommended on the Poast label.

DO NOT apply to grasses or crops under stress such as stress due to lack of moisture, hail damage, flooding, herbicide injury, mechanical injury, or widely fluctuating temperatures, as unsatisfactory control may result. Irrigation may be needed.

DO NOT apply to crops that show injury (leaf phytotoxicity or plant stunting) produced by any other prior herbicide applications, because this injury may be enhanced or prolonged.

Physical incompatibility, reduced weed control, or crop injury may result from mixing Poast with other pesticides (fungicides, herbicides, insecticides, or miticides), additives, or fertilizers. BASF does not recommend using tank mixes other than those listed on BASF labeling. Local agricultural authorities may be a source of information when using other than BASF recommended tank mixes.

Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.**
