**Read Entire Label Before Use**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Keep children and pets off treated area until product has been watered in and lawn is dry.

**Restrictions:**

- Apply this product directly to the lawn or garden area. Water treated area as directed on this label.
- Do not water to the point of runoff.
- Do not make applications during rain.
- Application is prohibited directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- Do not apply this product to edible growing crops or stored raw agricultural commodities used for food or feed.
- Do not allow applications to contact water inhabited by fish, such as in ornamental fish ponds that are located around structures being treated.
- Do not apply this product by aerial application.
- Use of this pesticide adjacent to water may affect aquatic organisms. To protect these organisms, do not apply this pesticide within 25 ft. of lakes, reservoirs, rivers, permanent streams, marches or natural ponds, estuaries, and commercial fish farm ponds.
- In New York State, this product may not be applied within 100 feet of a coastal marsh stream, or stream that drains directly into a coastal marsh stream.
- Observe all restrictions and precautions which appear on the label of this product.
- Do not apply more than 0.30 lbs. of the active ingredient (600 pounds of this product) per acre per year.

**General Information**

For use outdoors, on lawns and as a hand treatment around house foundation. Kills ants (including Fire Ants), cicadas, earwigs, fleas, roaches (German and American) and other insect pests listed in the tables below. To use this product follow these 2 easy steps: (1) Determine the size of the job and measure the area to be treated. (2) Treat as directed in rate chart. Complete coverage is important. Water in granules immediately following application.

**Treatment Around Foundations / Tratamiento alrededor de cimientos**

**Pests**

<table>
<thead>
<tr>
<th>Pests (Argentine, Southern, Field, Allegheny mound, Florida Carpenter, Black Carpenter, Comfield, Honey, Pavement, Red Imported Fire Ant, Nuisance), Flies, Roaches (German and American), Palmetto bugs, Waterbugs, Millipedes, Mites, Silverfish, Scorpions (Pillbug), Crickets, Earwigs</th>
</tr>
</thead>
</table>

**Use Rate**

Apply at the rate of 2 lbs. to 3 lbs. per 1,000 sq. ft. (1,000 lbs. per 1,000 sq. ft. for 5 x 200 ft. or 3,2 oz. to 4.8 oz. per 100 sq. ft. [10 x 10 ft]).

**Use Instructions**

Apply a 3 to 10 foot band of granules next to the house foundation and completely distribute the granules. Water lightly immediately following application. Treat when insects first appear or when you notice lawn damage. For best results, leaf litter and debris should be removed from the foundation area. Branches and vegetation that touch the foundation should be cut back. Other potential pest harborage sites, such as deep mulch, should be cleared away before application.

**Plagas**

- Hormigas (argentina, aurata, del campo, de Allegheny, carpinteras de Florida, carpinteras negras, del maíz, del pelo, hormiga roja de fuego, Individuales, palomitas, pulgas, cucarachas [alemanas y americana], de la palma, plancton americano, diabita, ácaros, lejía, cochinilla de humedal [cochinilla], grillos, tijeretas

**Proporción de uso**

Aplicable de una proporción de 2 libras a 3 libras por cada 1,000 pies cuadrados (0.91 kg a 1.36 kg por 92.9 m²) (un área de 5 pies x 200 pies) (1.5 m x 61 m) de 3,2 onzas a 4.8 onzas por cada 100 pies cuadrados (3.2 onzas a 4.8 onzas por 9,3 m²) (10 pies x 10 pies) (3 m x 3 m).

**Instrucciones de uso**

Aplique una franja de 3 a 10 pies (0.91 m a 3 m) de gránulos cerca del cimiento de la casa y distribuya completamente los gránulos. Frote ligeramente después de la aplicación. Trate cuando los insectos aparecen por primera vez o cuando note que hay daño en el césped. Para obtener los mejores resultados, la hierba y las rocas deben estar en seco. Se deben cortar la vegetación y las raíces que rodean los cimientos. Antes de la aplicación, se deben bajar otros lugares de anidación de plagas, como en el jardín o en las cercanías del césped.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful enzymes. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
