Note: "Pump 'N Go Sprayer" has been added to the product name for this registration.
HOW TO ASSEMBLE AND USE

1. CUT

Carefully cut the two white clip ties securing the frame and pump handle with scissors. Use caution not to cut the white hose.

2. CONNECT

Insert the hose into the fitting of the opposite end and screw it up as far as it will go. Use caution not to cut the white hose.

3. EXTEND HONDS

Lift the yellow hose and slide the pump handle into the fitting until it is fully seated and the yellow button is visible in the pump position.

4. PUMP

Make sure handle is screwed on TIGHTLY to ensure the hose will not pressurize. Pump container 10-20 times to pressurize bottle. A full bottle requires 50-80 pumps, that is usually between 50 and 60, depending on moisture level of the area. When pump handle is fully engaged, lift the hose with your hand and the trigger will not function until you reach the full extended position.

5. SPRAY

Now spray. Spray for pushing down white trigger with thumb. Adjust spray pattern by rotating white nozzle tip up or down.

6. STORE

When finished spraying, push the yellow button and the hose will drain. unter the original straight position, follow the directions on the bottle for the integrated trigger with nozzle that extends through the eyepiece opening.

7. DEPRESSURIZE

Push pump handle all the way down and turn pump handle and cap counter-clockwise to drain pressure, then tighten pump by turning.

PRODUCT FACTS

- Container holds up to 400 cc/10 oz.
- Kills Toughest Weeds, Grasses, Brush including Woody Plants & Vines, Poison Ivy/Poison Oak, Poison Sumac, Radiata, Whistlberry and more.
