Sanitize hard, non-porous surfaces: Avian Influenza virus, Aspergillus fumigatus, Bacillus anthracis, Bacillus cereus, Bacillus megaterium, Bordetella pertussis, Campylobacter jejuni, C. parahaemolyticus, C. jejuni, Clostridium botulinum, Clostridium difficile, Clostridium tetani, Cryptosporidium parvum, Cyclospora cayetanensis, Enterococcus faecalis, Enterococcus faecium, Escherichia coli, Helicobacter pylori, Hepatitis A virus, Hepatitis B virus, Hepatitis C virus, Norovirus, Poliovirus, Pseudomonas aeruginosa, Salmonella enterica serovar Typhi, Salmonella enterica serovar Typhimurium, Shigella dysenteriae, Staphylococcus aureus, Staphylococcus saprophyticus, Staphylococcus epidermidis, Staphylococcus aureus (CA MRSA), Yersinia pestis, Yersinia enterocolitica, and Zoonotic Bacteria.

DIRECTIONS FOR USE

1. Sanitize pre-cleaned hard nonporous articles using a solution of 1/4 - 1/2 ounce per 4 gallons of water (200-400 ppm active). Immerse all utensils or surfaces to be sanitized. Immerse all surfaces until thoroughly wetted for 1 minute. Procedures for spray applications, tubing, and items requiring a thorough wet down should be followed as detailed in the User Manual. Allow sanitized surfaces to adequately dry before placing.

2. If solution becomes visibly dirty, the used sanitizing solution must not be re-used. Prepare a fresh solution at least daily or when use solution becomes visibly dirty. The used sanitizing solution must be drained from the system. Disposal instructions for rinsate disposal. Drain for 10 seconds after the flow begins or when the solution reaches a drip rate. Repeat this procedure two more times.

3. Do not use or store near heat or open flame.

4. Sanitize in a solution of 1-2 ounces of this product per 4 gallons of water (200-400 ppm active). Immerse all utensils or surfaces to be sanitized. Immerse all surfaces until thoroughly wetted for 1 minute. Procedures for spray applications, tubing, and items requiring a thorough wet down should be followed as detailed in the User Manual. Allow sanitized surfaces to adequately dry before placing. The used sanitizing solution must not be re-used. Prepare a fresh solution at least daily or when use solution becomes visibly dirty. The used sanitizing solution must be drained from the system.

5. Place sanitized utensils on a rack or charged off. For spray applications, items should be charged off while wet or until sanitized surfaces are adequately dry. Use solution must be stored in a manner consistent with its intended use and purpose.

ENVIRONMENTAL HAZARD
