### DIRECTIONS FOR USE:

1. **GENERAL CLEANING –**
   - Diluted product should be applied daily or more frequently with heavy facility use.
   - Apply solution with a cloth, sponge or hand pump trigger sprayer to hard, nonporous surfaces (on hard, nonporous, inanimate surfaces), add 1 ounce of this product per gallon of water. Apply solution with a cloth, mop, sponge or hand pump trigger sprayer, making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use.

2. **FUNGICIDAL ACTIVITY:**
   - (on hard, nonporous, inanimate surfaces)
   - Influenza A2/Hong Kong
   - Vaccinia
   - Shigella dysenteriae
   - Staphylococcus aureus
   - Serratia marcescens
   - Trichophyton mentagrophytes
   - Vancomycin resistant
   - Community Associated Methicillin resistant

3. **VIRUCIDAL ACTIVITY –**
   - (including HIV-1, HIV-2, HBV and HCV)
   - 6 – 8 inches from surface, rub with brush, sponge or cloth. Do not breathe spray mist. For heavily soiled areas, a precleaning step is required. Prepare a fresh solution for each use. Apply solution with a cloth, sponge or hand pump trigger sprayer to hard, nonporous surfaces, add 1 ounce of this product per gallon of water. Add 1 ounce of the product per gallon of water. For heavily soiled areas, a precleaning step is required. Prepare a fresh solution for each use.

4. **HARSH SURFACES:**
   - (e.g., stainless steel)
   - (non-food contact glass, metal, stainless steel, glazed porcelain, glazed ceramic, sealed glass)
   - (Any porous or nonporous surface)

5. **BIODOMES:**
   - (informed by a rise in the aquatic population)
   - (in health care settings (hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling with potentially harmful organisms)
   - (including HIV-1, HIV-2, HBV and HCV)

6. **STORAGE:**
   - 600 ppm (850 ppm active quaternary) (or equivalent dilution) for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been absorbed, set or dried.

7. **DISPOSAL:**
   - Do not contaminate water, food or feed by storage or disposal.

### PRECAUTIONARY STATEMENTS:

- **FIRST AID:** Have the product container or label with you when calling a poison control center or doctor or going for treatment. **IF IN EYES:** Hold open eye and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

- **NOTE TO PHYSICIAN:** Probable mucosal damage may contradict the use of gastric lavage.

### NET CONTENTS:

*QUESTIONS OR COMMENTS?/¿PREGUNTAS O COMENTARIOS?*
Pro Quaternary All-Purpose Disinfectant Cleaner, when used as directed, is formulated to disinfect the following hard, nonporous, inanimate environmental surfaces:

- **Rooms, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs and cabinets**
- **Non-food contact glass, metal, stainless steel, glazed porcelain, glazed ceramic, sealed fiberglass, sealed granite, sealed marble, plastic, chrome and vinyl**
- **Tables, chairs, desks, bed frames, walls, cabinets, doorknobs and garbage cans**
- **Picnic tables (non-wooden) and outdoor furniture (except cushions and wood frames)**
- **Non-food contact countertops, sinks, refrigerator exteriors, coolers, freezer exteriors, stovetops, appliances, non-food contact equipment, shelves, racks and carts**
- **Shower stalls, shower doors and curtains, tubs and glazed tiles, toilets, urinals, porcelain tile and restroom fixtures**
- **Windows and mirrors**
- **Large, inflatable nonporous plastic or rubber structures: animals, promotional items, moonwalks, slides, obstacle course play equipment, exercise equipment, exercise mats, wrestling mats**

**Clorox® Pro Quaternary All-Purpose Disinfectant Cleaner** is a phosphate-free, pH neutral formulation designed to provide effective cleaning, disinfecting and deodorizing for hospitals, nursing homes, schools, food service establishments, office buildings, manufacturing facilities, lodging establishments, retail business and athletic/entertainment facilities where housekeeping is of prime importance in controlling cross-contamination from treated surfaces.

**Bacterial activity** against a broad spectrum of bacteria, is virucidal* against pathogenic fungi, is fungicidal against pathogenic fungi, and inhibits the growth of mold and mildew and their odors when used as directed.

**Disinfectant**

- **Rotavirus  Human Coronavirus (ATCC VR-740, Strain 229E)**
- **Influenza A2/Hong Kong  Vaccinia**
- **Hepatitis B virus (HBV)  Hepatitis C virus (HCV)**
- **Community Associated Methicillin resistant Staphylococcus aureus (CA-MRSA) MS126 San Diego USA900**
- **Vaccinum intermediate resistant Staphylococcus aureus (VISA)**
- **Vaccinum resistant Enterococcus faecalis (VRE)**
- **Methicillin resistant Staphylococcus aureus (MRSA)**
- **Salmone-la enterica subsp. enterica serotype enteritidis  E. coli O157:H7  Salmonella typhi  Escherichia coli  Clostridium botulinum Type E  C. difficile resistant Clostridium perfringens Type A**
- **Staphylococcus aureus  Staphylococcus epidermidis  Staphylococcus lugdunensis**
- **Staphylococcus pyogenes (Clinical - Flesh Eating Strain DRO NO)  Staphylococcus lugdunensis Group A**
- **Actinobacillus actinomycetemcomitans**
- **Conidia abicans**

**Fungal activity**

**Moderate** (on non-porous, inanimate environmental surfaces):

- **Aspergillus niger**

**Questions or Comments? / ¿Preguntas o comentarios?** Call 1-888-797-7225.

Clorox® Pro Quaternary All-Purpose Disinfectant Cleaner1

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**DISINFECTION** – To disinfect inanimate, hard, nonporous surfaces, add 1 ounce of this product per gallon of water. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low-pressure coarse spray so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For spray applications, spray 6-8 inches from surface, rub with brush, sponge or cloth. Do not blow dry mist or wash. For heavily soiled areas, a precleaning step is required. Prepare a fresh solution for each use.

**FUNGICIDAL ACTIVITY** – This product, when used on environmental, inanimate, hard, nonporous surfaces, exhibits effective virucidal activity. Add 1 ounce of the product per gallon of water. For heavily soiled areas, a precleaning step is required. Apply solution with a cloth, mop, sponge, hand pump trigger sprayer or low-pressure coarse spray so as to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes, then remove excess liquid.

**MILDEWSTAT** – To control mold and mildew (Aspergillus niger) and the odors they cause on preconditioned hard, nonporous, inanimate surfaces, add 1 ounce of this product per gallon of water. Apply solution with a cloth, mop, sponge or hand pump trigger sprayer, making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application of weekly intervals or when mildew growth appears.

**FUNCTIONAL DISINFECTANT** – At the 1 ounce per gallon dilution, this product is fungicidal against the pathogenic fungi, Pseudomonas aeruginosa (Athlete’s Foot Fungus)(a cause of ringworm) (a cause of ringworm of the feet) and Candida albicans. Apply solution with a cloth, sponge or hand pump trigger sprayer to hard, nonporous surfaces found in bathrooms, shower stalls, locker rooms, exercise facilities or other clean, hard, nonporous surfaces commonly contacted by bare feet. Allow the surface to remain wet for 10 minutes, then remove excess liquid. Diluted product should be applied daily or more frequently with heavy use.

**GENERAL CLEANING** – Apply this product to soiled area with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer. This product can be diluted at 1 ounce per gallon or applied at full strength. Thoroughly wet soiled surface and scrub as necessary.

**DECORODIZATION** – To deodorize, apply this product as indicated under the heading DISINFECTION.

To disinfect toilet bowls – Remove gross filth or soot from surfaces with bowl brush. Add 1 ounce of this product to the bowl water. Brush or swab bowl completely using a scrub brush or toilet mop making sure to get under the rim. Let stand for 10 minutes and flush.

To Control Mold and Mildew on Large, Inflatable, Nonporous Plastic and Rubber Structures (animals, promotional items, moonwalk, slides, obstacle course play equipment, exercise equipment, and wrestling mats): Add 1 ounce of this product per gallon of water. Apply solution with a cloth, mop, spray, sponge or hand pump trigger sprayer to hard, nonporous surfaces that are previously treated. Let surface remain wet for 10 minutes. Ventilate buildings and other closed spaces. Do not use new equipment until treatment has been absorbed, set or dried.

**WARNING:** Not a substitute for veterinary antibiotics. Do not use the same application equipment or re-use the same equipment on different animals or pen areas.

**KILLS:** Virus (Hepatitis C virus) (HCV) and the viruses that cause: Hepatitis B virus (HBV), Human Parvovirus B19, Human papillomavirus (HPV), Human rhinovirus (HRV) and Hepatitis B virus (HVB).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HIV-2, HBV AND HCV ON PREVIOUSLY CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/Body FLUIDS in health care settings (hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling of inanimate objects/surfaces with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human Immunodeficiency Virus Type 1 and Type 2 (HIV-1 and -2) (associated with AIDS), Hepatitis B virus (HBV) and Hepatitis C virus (HCV).

**CLEANING PROTOCOLS:** Blood and other body fluids must be thoroughly cleared from surfaces and objects before application of this product. CONTACT TIME: Allow surface to remain wet for 10 minutes. DISPOSAL OF INFECTIONOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

**STORAGE AND DISPOSAL:** DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

**PESTICIDE DISPOSAL:** Store in a dry place out of the reach of children in a well-ventilated area. Do not re-use or refill container. Do not use for or in any water or food or feed application equipment or re-use it on its original label or its intended use.

**PRECAUTIONARY STATEMENTS:** HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

**DANGER:** KEEP OUT OF REACH OF CHILDREN. CORROSIVE.

Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. May be fatal if ingested or inhaled. If swallowed, Wear goggles or face shield, rubber gloves and protective clothing. Remove contaminated clothing and wash before reuse.

When applying this product to water and other handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
