Lemon Crush is a phosphate-free, pH neutral formulation designed to provide effective cleaning, deodorizing and disinfection in areas where housekeeping is of prime importance in controlling the spread of microorganisms as well as soils. For use on various surfaces, floors, countertops, glazed tile and other non-porous surfaces inside and outside of institutional, industrial, food processing, retail and commercial facilities.

**LEMON CRUSH**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**INFORMATION AND DIRECTIONS**

**GENERAL DEODORIZATION:**

For use on washable walls, floors, tables, countertops, glazed tile and other hard non-porous surfaces.

**When used as directed at 4 fluid ounces per gallon of water or equivalent use dilution and a 10-minute contact time, this product is highly effective against the following:**

- Aspergillus niger
- Molds and mildew
- Faecalis, Enterococcus faecalis Multiple Drug Resistant, Enterococcus faecalis Gentamicin Resistant, Enterococcus faecalis Streptomycin Sensitive, Enterococcus faecalis Vancomycin Resistant VRE, Enterococcus faecalis Ciprofloxacin Resistant
- Salmonella schottmuelleri, Salmonella typhi, Salmonella typhimurium, Serratia marcescens, Shigella dysenteriae, Shigella flexneri, Shigella sonnei, Staphylococcus aureus, Staphylococcus aureus Multiple Drug Resistant, Staphylococcus aureus Ampicillin Resistant, Staphylococcus aureus Cefotaxime Resistant, Staphylococcus aureus Cephalothin Resistant, Staphylococcus aureus Ciprofloxacin Sensitive, Staphylococcus aureus Clindamycin Resistant, Staphylococcus aureus Trimeth/Sulfa Sensitive, Staphylococcus aureus Vancomycin Sensitive, Staphylococcus epidermidis, Streptococcus pyogenes, Community Acquired Staphylococcus aureus Methicillin Resistant CAMRSA.
- Clinical isolates of Gram-negative bacteria and Gram-positive cocci from blood, respiratory, and wound infection systems were evaluated for susceptibility to a dilution of Lemon Crush.

**PESTICIDE STORAGE:**

Locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

**DISINFECTION IN INSTITUTIONS AND NON-MEDICAL FACILITIES:**

Add 4 ounces of this product per gallon of water to control the growth of mold and mildew and their odors on hard, non-porous surfaces thoroughly wetting surfaces with a cloth, mop, sponge or sprayer. For sprayer applications, use a coarse spray device. Spray 6-8 inches from surface. Rub with brush, sponge or cloth. Do not breathe spray. Treated surfaces must remain wet for 10 minutes for air to dry. Repeat application every other day.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

If on skin or clothing, wash thoroughly with soap and water. If in the eyes, flush with water or use a commercially available solution to remove any residual product from the eye. Call a poison control center or doctor for further treatment advice.

**STORAGE AND DISPOSAL**

Not for home or residential use. CAUTION: Do not pour down drain or in cisterns. Do not directly contaminate water, food, or feed by applying to surfaces.

**EDIBLE PRODUCTS:**

Make sure all surfaces are dry before feeding to animals. Do not use in or near food or water supplies used for human consumption.

**KEEP OUT OF REACH DANGER PELIGRO:**

Do not use near food or water supplies used for human consumption.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

If on skin or clothing, wash thoroughly with soap and water. If in the eyes, flush with water or use a commercially available solution to remove any residual product from the eye. Call a poison control center or doctor for further treatment advice.

**FIRST AID**

From the product container or with you when calling a poison control center or doctor for your area.

**IF IN THE EYES:**

Put on a chemical resistant glove, wipe away any residual product from the eye. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:**

Do not induce vomiting. If vomiting occurs, call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:**

Wash thoroughly with soap and water. If on skin or clothing, wash thoroughly with soap and water. If in the eyes, flush with water or use a commercially available solution to remove any residual product from the eye. Call a poison control center or doctor for further treatment advice.

**KEEP OUT OF REACH DANGER PELIGRO:**

Do not use near food or water supplies used for human consumption.

**FIRST AID**

From the product container or with you when calling a poison control center or doctor for your area.

**IF IN THE EYES:**

Put on a chemical resistant glove, wipe away any residual product from the eye. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:**

Do not induce vomiting. If vomiting occurs, call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:**

Wash thoroughly with soap and water. If on skin or clothing, wash thoroughly with soap and water. If in the eyes, flush with water or use a commercially available solution to remove any residual product from the eye. Call a poison control center or doctor for further treatment advice.

**KEEP OUT OF REACH DANGER PELIGRO:**

Do not use near food or water supplies used for human consumption.

**FIRST AID**

From the product container or with you when calling a poison control center or doctor for your area.

**IF IN THE EYES:**

Put on a chemical resistant glove, wipe away any residual product from the eye. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:**

Do not induce vomiting. If vomiting occurs, call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:**

Wash thoroughly with soap and water. If on skin or clothing, wash thoroughly with soap and water. If in the eyes, flush with water or use a commercially available solution to remove any residual product from the eye. Call a poison control center or doctor for further treatment advice.

To the nearest EPA Regional Office for guidance. If these wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes are not disposed of properly, they may be hazardous.

**If on skin or clothing, wash with soap and water.**

If in the eyes, wash out thoroughly with water. If on skin or clothing, wash with soap and water.

**Checking the label of each pesticide container before use is essential.**

For use on washable walls, floors, tables, countertops, glazed tile and other non-porous surfaces.
