Isomer Specific by AOAC Method.
Where to Use: Lawns: Kills the weeds not the lawn when used as directed.
When to Use: Apply when daytime temperatures are below 90°F.

HOW IT WORKS
Ortho® Weed-B-Gon® Max® Concentrate plus Crabgrass Control Singles contains three proven weed killers that target lawn weeds and crabgrass. This herbicide enters the lawn weeds through their leaves and moves throughout the plant to provide control. And lawns listed on this label will not be harmed when used as directed.

WHERE TO USE
Ortho® Weed-B-Gon® Max® Concentrate plus Crabgrass Control Singles can be applied to residential lawns with the following turfgrass species:

Cool Season Turfgrass: Kentucky Bluegrass; Ryegrass, perennial and annual; Tall Fescue; mixtures of cool season grasses containing fine fescues (red, hard and chewings)

Warm Season Turfgrass: Zoysia; Buffalograss; Bermuda1, common and hybrid

DO NOT Apply To The Following:
Bahiagrass; Bentgrass; colonial and creeping; Carpetgrass; Centipedegrass; Dichondra; Gardens including vegetables, fruit trees, vines and berries; Ornamental plants (flowers, trees, groundcovers, landscape beds and shrubs); Seashore Paspalum; St. Augustinegrass; turfgrass species that are not listed on this label.

1 Application to Bermudagrass may cause temporary yellowing or discoloration but full recovery can be expected. Do not apply to Bermudagrass when daytime temperatures exceed 85°F.

LAWNS TO BE TREATED
Broadleaf Signalgrass; Burclover; Burweed; Buttercup; Carpetweed; Chickweeds; Creeping Charlie; Creeping Dandelion; Dollarweed; False Dandelion; Giant Foxtail; Green Foxtail; Ground Ivy; Henbit; Large Crabgrass; Morningglory; Oxalis; Plantain; Purslane; common; Ragweed; Red Sorrel; Smooth Crabgrass; Spotted Spurge; Spurweed; Thistle; White Clover; Wild Onion; Yellow Foxtail and other broadleaf weeds

WHAT TO DO
Apply this product when weeds are small and actively growing.

2 The maximum application rate is 6.4 fl oz of product per 1,000 sq ft per application (1.0 lb 2,4-D acid equivalent per acre per application). The maximum number of broadcast applications is limited to 2 per year. The maximum seasonal rate is 12.8 fl oz of product per 1,000 sq ft (2.0 lbs 2,4-D acid equivalent per acre), excluding spot treatments.
For Spot Treatment
Tank Sprayer
- Add entire contents of 1 bottle (5 oz) to an empty 2-gallon tank sprayer. Slowly fill with 2 gallons of clean tap water.

For Broadcast Application
Ortho® Dial ‘N Spray® Applicator
1. Set dial to 2.5 oz.
2. Add entire contents of 1 bottle (5 oz) directly into sprayer jar. DO NOT ADD WATER.
3. Spray evenly over 800 sq ft.

Over-application or rates above those recommended on this label can cause turf injury.

Irrigation
- Non-stressed turfgrass
- Stress from high temperatures, drought, insects or diseases
  - Adequate soil moisture and favorable growing conditions enhance the performance of this product.
  - Avoid applications of this product when turfgrass is under stress since injury may result. If dry conditions exist, schedule irrigations (watering) before and after the application. For best results, delay the irrigation until approximately 24 hours after application of this product.

Mowing
- Delay mowing 2 days before and until 2 days after the application of this product.
- Do not use clippings from the treated areas as mulch or compost around flowers, ornamentals, trees, or in vegetable gardens.

Nontarget plants
- Do not apply this product to food crops (garden, fruits and vegetables, forage crops, or ornamental plants including flowers, trees, shrubs, hedges, woody ornamentals, ground-covers established in landscape plantings and other nontarget plants.
- Do not spray exposed roots of ornamentals and trees.

PESTICIDE STORAGE: Keep from freezing. Store in original container in a locked storage area inaccessible to children and pets. Avoid contamination of food or feedstuffs.

DISPOSAL: If Empty — Do not reuse this container. Place in trash or offer for recycling if available. If Partly Filled — Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Harmful if swallowed. When using this product, wear long-sleeved shirt, long pants, socks, shoes, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-225-2883 for emergency medical treatment advice.

User Safety Recommendations
• Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. If pesticide gets on skin, wash immediately with soap and water.
• Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark except as noted on appropriate labels. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsate.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

NOTICE: Buyer assumes all risks of use, storage or handling of this product not in accordance with directions.

The ORTHO Guarantee: If for any reason you are not satisfied with this product, mail us proof of purchase to obtain a full refund of your purchase price.
