**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**Storage**
- Keep tightly closed and sealed. Product is moisture, temperature and light sensitive. Product is hygroscopic so protect from moisture. Store in a cool (<17°F, 2°C), dry place away from heat and open flames with minimum exposure to the atmosphere. Avoid extremes in temperature.

**Pesticide Disposal**
- Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Handling**
- Non-refillable Container. Do not reuse or refill this container. Completely empty bag into application equipment. Offer bag for recycling if available or dispose of in a sanitary landfill or by incineration, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**CONDITION OF SALE AND LIMITATION OF LIABILITY AND WARRANTY**

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials, resistant strains or other influencing factors in the use of the product, which are beyond the control of AGROSOURCE, INC., or Seller. To the extent consistent with applicable law, all such risks shall be assumed by Buyer and User and AGROSOURCE, INC. and Seller harmless for any claims relating to such factors. AGROSOURCE, INC. warrants that this product conforms to the chemical description on the label and it is reasonably to be expected that the product is used in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions.

To the extent consistent with applicable law, all such risks shall be assumed by Buyer and User, and Buyer and User assume the risk of any such use. AGROSOURCE, INC. MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE. In no event shall AGROSOURCE, INC. or Seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. To the extent consistent with applicable law, the exclusive remedy of the buyer or user, and the exclusive liability of AGROSOURCE, INC. and Seller for any and all claims, losses, injuries or damages (including claims based on breach of warranty, contract, negligence, tort, strict liability or otherwise) resulting from the use or handling of this product, shall be the return of the purchase price of the product or, at the discretion of AGROSOURCE, INC. or Seller, the replacement of the product. AGROSOURCE, INC. and Seller offer this product, and Buyer and User accept it, subject to the foregoing conditions of sale and limitations of warranty and of liability, which may not be modified except by written agreement signed by a duly authorized representative of AGROSOURCE, INC.

FireLine™ 17 WP Fungicide/Bactericide

AGRICULTURAL USE REQUIREMENTS

Application Restrictions-All Uses:

- Do not apply for medical, veterinary or human purposes.
- Do not for residential use.
- Do not apply this product through any type of irrigation system, including chemigation.
- Do not apply this product with any detergent.
- Do not apply to animal feedlot waste areas.
- Animal grazing in treated areas is prohibited. The public must be notified by posting restrictions signs along the perimeter of the treatment area.
- Use only the specified full-strength applications.
- Do not apply oxytetracycline in orchards in which the soil has been fertilized with animal manure/urine or human biosolids.
- Do not apply oxytetracycline in orchards before alternating with another fungicide/bactericide of a different mode of action.
- Spray Drift Prevention-All uses: Use equipment designed for use and direct spray into the canopy, and turn off swath out directed nozzles at row ends and when spraying outer rows.

Environmental Hazards

Do not apply directly to water sources where water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of waste. Use personal protective equipment and Equipment Wearing Instructions.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Do not allow persons to enter the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Attention:

This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.

Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 190. This Standard contains requirements for the protection of agricultural workers from exposures to pesticides and their residues, and handling of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted entry interval. The requirements in this box apply to uses that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours.

For early entry to treated areas that is permitted under the Worker Protection Standard, PPE must be worn, and this product is not to be used for medical, veterinary, or human purposes. Use only the specified full-strength applications.

Do not apply this product with any detergent. Animal grazing in treated areas is prohibited. The public must be notified by posting restrictions signs along the perimeter of the treatment area.

Use only the specified full-strength applications.

Do not apply oxytetracycline in orchards in which the soil has been fertilized with animal manure/urine or human biosolids.

Spray Drift Prevention-All uses: Use equipment designed for use and direct spray into the canopy, and turn off swath out directed nozzles at row ends and when spraying outer rows.

Responsibilities of Handlers

Follow the manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are available, use detergent and hot water. Keep and use PPE properly.

Higher level respirators that are NIOSH-approved for use as a mask with the following cartriges:

- NIOSH-approved particulate filtering facepiece respirator with any N, R or P filter (TC-84A); OR a NIOSH-approved powered air purifying respirator with a HE filter (TC-21C). Higher level respirators that are NIOSH-approved for particulates that contain oil may also be used.

Applicators must wear face coverings, goggles, safety glasses or face shields.

• Use chemical-resistant gloves and shoes and socks.

• Coveralls over short-sleeved shirt and short pants.

• Protective eyewear (goggles, safety glasses or face shield).

• Chemical-resistant gloves made of any waterproof material

• Chemical-resistant shirts and shorts

• Protective eyewear

This product contains the antibiotic oxytetracycline. To reduce the development of antibiotic-resistant bacteria and maintain the effectiveness of antibiotics and fungicide/bactericide products, this product should be used to treat or prevent infections that are proven or strongly suspected to be caused by bacteria or fungi. Use only the specified full-strength applications.

Changes or modifications of this product that are not expressly approved in this label will result in an increased likelihood of bacteria developing resistance to oxytetracycline, follow the crop and use area (for example the use of IPM, disease forecasting models, resistance crop varieties, etc.) Consult your local extension/consultant or State agricultural agency if reduced use strategies are necessary.

Do not apply more than two consecutive applications before alternating with a product not labeled for the same disease on the same crops.

Restriction Management Statements: FireLine™ 17 WP Fungicide/Bactericide

Resistance Management: FireLine™ 17 WP Fungicide/Bactericide Agricultural Oxytetracyline

Application Restrictions-All Uses:

- Do not apply FireLine™ 17 WP Fungicide/Bactericide Agricultural Oxytetracyline at the strength application (0.82 lbs. active ingredient per acre, equivalent to 1.70 lbs. (160 oz.) of product per acre) or P filter (TC-84A); OR a NIOSH-approved powered air purifying respirator with an HE filter (TC-21C). Higher level respirators that are NIOSH-approved for particulates that contain oil may also be used.

Applicators do not have to wear the protective eyewear, chemical-resistant gloves, chemical-resistant shirts and shorts, or a respirator headgear, or a mask if they meet the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.67(a)).

Applicators do not use diesel systems unless those vessels are covered cans in a manner that meets the requirements listed in the WPS for agricultural pesticides (40 CFR 170.67(b)) and the applicator has been informed that the PPE requirements may be reduced or modified as specified in the WPS.

Follow the manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are washing detergent, deluge and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

- Wash hands after eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately after handling this product. Wash the outside of the PPE if contaminated. Change into protective clothing.
- Remove PPE immediately after handling this product. Wash the outside of the PPE if contaminated. Change into protective clothing.
- Change into protective clothing.
- Wash thoroughly and change into protective clothing.

ENVIRONMENTAL HAZARDS

Do not apply directly to water sources where water is present or to intertidal areas below the mean high water mark.

Do not contaminate water by cleaning of equipment or disposal of waste.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Do not allow persons to enter the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Attention:

This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Prolonged exposure to dust may cause irritation to the skin and respiratory system. Avoid the consecutive use of products that are incompatible with FireLine™ 17 WP Fungicide/Bactericide. Bacterial stenosis/fungal isolates with acquired resistance to Group 41 may evolve to the bacteria types that are susceptible to oxytetracycline.

**CAUTION:** Contact your local extension specialist, certified crop advisors, and/or manufacturers for fungicide/bactericide resistance management statements for specific crops and resistant pathogens.

**PRECAUTIONARY STATEMENTS**

Hazards to Humans & Domestic Animals

CAUTION: Prolonged exposure to dust may cause irritation to the skin and respiratory system. Avoid the consecutive use of products that are incompatible with FireLine™ 17 WP Fungicide/Bactericide. Bacterial stenosis/fungal isolates with acquired resistance to Group 41 may evolve to the bacteria types that are susceptible to oxytetracycline.

**CAUTION:** Contact your local extension specialist, certified crop advisors, and/or manufacturers for fungicide/bactericide resistance management statements for specific crops and resistant pathogens.

Apply the product in sufficient water volume to achieve adequate coverage.

Follow Application Requirements:

- Apply as a foliar spray, as directed.
- Application rate: 21 oz. per acre, equivalent to 1.70 lbs. (160 oz.) of product per acre.
- Maximum annual amount per crop at 10 lbs. (160 oz.) of product per acre.
- Maximum number of applications at 21 days after second application.
- Use only the full strength application.

Follow Application Requirements:

- Do not allow this product to contact fire lines or other sensitive vegetation. Apply only as directed.
- Use only the full strength application.

Follow Application Requirements:

- Do not use any product that has a prohibition on tank mixing and follow the product label directions carefully.
- Do not use FireLine™ 17 WP Fungicide/Bactericide Agricultural Oxytetracyline for any purpose other than as directed.
- Use only the full strength application.

Follow Application Requirements:

- Application restrictions-All uses.

- Application restrictions-All uses.
**Fungicide/Bactericide**

**Agricultural Oxytetracycline**

**OXETRACYCLINE GROUP 41 FUNGICIDE**

For control or suppression of:
- Fire Blight for apples and pears
- Bacterial Spot for peaches and nectarines
- Haplosporangium “HLB” - citrus greening,
  “greening” for citrus Crop Group 10-10
- Citrus canker for citrus Crop Group 10-10

Active Ingredient:
- Oxytetracycline Hydrochloride* . . . . . . . . . . . 18.30%
- Related Compounds . . . . . . . . . . . . . . . . . 0.17%
- Other Ingredients: . . . . . . . . . . . . . . . . . . 81.53%

**TOTAL: 100.00%**

*Equivalent to 17% oxytetracycline

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

Scattered to entangle the stigmas, base a diaphragm for use in tents. (If you do not understand the label, find someone to explain it to you in detail).

**FIRST AID**

**If In Eyes:**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

**If On Skin or Clothing:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

**If Swallowed:**
- Call a poison control center or doctor immediately for treatment advice.
- Have the person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything to an unconscious person.
- Have the person sip water if able to swallow.

If on Skin or Clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

**HAZARDS TO HUMANS & DOMESTIC ANIMALS**

**CAUTION:** Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes or clothing. Do not breathe spray mist. Prolonged or frequent exposure may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco. Remove and wash contaminated clothing before reuse. This material is not to be used for medical, veterinary or human purposes.

**Personal Protective Equipment (PPE):**
- All applicators and other handlers must wear a minimum of:
  - General work shirt and pants
  - Protective eyewear (goggles, safety glasses or face shield)
  - Shoes and socks
  - Chemical resistant gloves
- NIOSH-approved particulate filtering facepiece respirator with any N, R or P filter (TC-64A); or an elastomeric NIOSH-approved particulate respirator with any N, R or P filter (TC-84A), OR a NIOSH-approved powered air purifying respirator with an HE filter (TC-21C). Higher level respirators that are NIOSH-approved for particulates that contain oil may also be used.

**FOR ADDITIONAL PRECAUTIONARY STATEMENTS:**
- See attached booklet on User Safety Recommendations and Environmental Hazards.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Keep tightly closed and sealed. Product is hygroscopic; protect from moisture. Store in a cool (<77°F, 25°C), dry place away from heat and open flames with minimum exposure to the atmosphere. Avoid extremes in temperature. Product is fire resistant; may be stored by open flame with minimum exposure to the atmosphere. Avoid extremes in temperature. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Handling:** Non-refillable Container

**PRECAUTIONARY STATEMENTS**

**Hazard to Humans & Domestic Animals**

**CAUTION:** Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes or clothing. Do not breathe spray mist. Prolonged or frequent exposure may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco.
