PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals, and pets. Do not get in eyes, on skin, or on clothing.

All handlers (including applicators) must wear a long-sleeved shirt, long pants, shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

User Safety Requirements

Follow manufacturer’s instructions for cleaning/maintaining Personal Protective Equipment (PPE). If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing them. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco, or using the toilet and change into clean clothing.

Environmental Hazards

This product is extremely toxic to mammals and birds. Dogs, cats, and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. This pesticide is toxic to fish. Do not apply directly to water, or to areas where surface or ground water may be affected. Refer to intervals below the mean high water mark. Run-off may also be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinseate.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and precautions. Use only for the sites, pests, and application methods described on this label.

Important: Do not expose children, pets, or other non-target animals to rodenticides. To reduce exposure:

• Store product not in use in a location out of reach of children or pets.
• Apply bait in locations out of reach of children, pets, domestic animals, and non-target wildlife in or tamper-resistant bait stations. All above-ground, outdoor applications must be in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under 2 years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. Bait cannot be removed when stations are lifted. Units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raptors, bears, or other potentially predatory animals, or in areas prone to vandalization.
• Dispose of product container, and unused, spoiled, and unaccted bait as specified on this label.

Note: Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used if children, pets, non-target mammals, or birds may access the bait.

USE RESTRICTIONS

This product may only be used to control Norway rats, roof rats, and house mice in and within 100 feet of agricultural buildings and man-made agricultural structures such as constructed in a manner so as to be vulnerable to commensal rodent invasions and/or harboring or attracting rodent infestations. Fence and perimeter baiting beyond 100 feet from an agricultural structure as defined above is prohibited. This product must not be applied directly to food or feed crops. Do not broadcast bait.

APPLICATION DIRECTIONS

Norway and Roof Rats

Apply 4–16 oz. of bait (usually at intervals of 15–30 ft) per placement. Bait must be placed not less than 6 inches into active Norway/roof rat burrows. Maintain an uninter-

APPLICATION DIRECTIONS

Second Generation Anticoagulant

Kills Warfarin-Resistant Norway Rats and House Mice

Norway Rats and house mice may consume a lethal dose in one night’s feeding, with first dead rodents appearing four or five days after feeding begins.

DISTRIBUTION TO AND SALES IN “CONSUMER” STORES INCLUDING GROCERY STORES, DRUG STORES, HARDWARE STORES, AND CLUB STORES IS PROHIBITED.

ACTIVE INGREDIENT: Brodifacoum 3,5-di-14-methyl-11,12-bipyrenyl-4-yl-2,3,4-tetrahydro-1-naphthalenyl-4-hydroxy-2H-1-benzopyran-2-one 0.005% OTHER INGREDIENTS: 99.995% TOTAL: 100.000% Contains Bitrex brand denatonium benzilate

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and domestic animals. Keep containers closed away from other chemicals.

Pesticide Disposal: Dispose of wastes resulting from the use of this product at an approved waste disposal facility or call your local solid waste agency for alternative disposal instructions. Never place unused product down any indoor or outdoor drain.

Container Handling: Nonrefillable container. Do not reuse or refill this container. When completely empty, offer for recycling, if available, or dispose of empty container in a sanitary landfill, by incineration, or by other procedures allowed by state and local authorities.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials, or other influencing factors which are beyond the control of SYNGENTA CROP PROTECTION, LLC or Seller. To the extent permitted by applicable law, Buyer and User agree to hold SYNGENTA and Seller harmless for any claims relating to such factors.

SYNGENTA warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, when used in accordance with directions under normal use conditions. To the extent permitted by applicable law, (1) this warranty does not apply to defects or damage resulting from the use of this product contrary to label instructions, (2) under conditions not reasonably foreseeable to or beyond the control of Seller or SYNGENTA, and (3) in an event in which the release of any such product is an EXTENT PERMITTED BY APPLICABLE LAW, SYNGENTA MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, NOR ANY OTHER EXPRESS OR IMPLIED WARRANTIES, EXCEPT AS WARRANTED BY THIS LABEL.

To the extent permitted by applicable law, in no event shall SYNGENTA be liable for any incidental, consequential, or special damages resulting from the use or handling of this product. TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER FOR BREACH OF THIS EXCLUSIVE WARRANTY IS THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF SYNGENTA, THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT AND NO OTHER REMEDY, WHETHER IN CONTRACT, TORT, OR OTHERWISE, IS AVAILABLE.

SYNGENTA and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of SYNGENTA.

APPLICATION DIRECTIONS, continued

rupted supply of fresh bait for 10 days or until signs of rat activity cease.

House Mice

Apply 14–9 oz. of bait per placement. Space placements at intervals of 8–12 ft. Larger placements (up to 2 oz.) may be needed at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for 15 days or until signs of mouse activity cease.

Follow-Up

Replace contaminated or spoiled bait immediately. Collect and dispose of all dead rodents and leftover bait property. To prevent reinfestation, limit sources of rodent food, water, and harborage as much as possible. Where a continuous source of infestation is present, maintain permanent bait stations and replenish with census or toxic bait as needed.

FIRST AID

HAVE LABEL WHEN OBTAINING TREATMENT ADVICE

If swallowed:

• Call a poison control center, doctor, or HOT LINE NUMBER immediately for treatment advice.
• Have a person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.

If on skin or on clothing:

• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15–20 minutes.
• Call a poison control center, doctor, or HOT LINE NUMBER immediately for treatment advice.

HOT LINE NUMBER

For 24-Hour Medical Emergency Assistance (Human or Animal) Or Chemical Emergency Assistance (Spill, Leak, Fire, or Accident) Call 1-800-669-5372

NOTE TO PHYSICIAN

If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1 intramuscularly or orally. Vitamin K1 is antidotal at doses of 10–20 mg (not mg/kg). Repeat as necessary based on monitoring of prothrombin times.

NOTICE TO VETERINARIAN

Anticoagulant Brodifacoum: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), administer Vitamin K1 at doses of 2–5 mg/kg. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

NOTICE TO VETERINARIAN

Anticoagulant Brodifacoum: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), administer Vitamin K1 at doses of 2-5 mg/kg. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian or HOT LINE NUMBER at once.
