PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGERS. CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS. MAY CAUSE ALLERGIC SKIN REACTIONS. HARMFUL IF INHALED. HARMFUL IF SWALLOWED OR ABSORBED THROUGH THE SKIN. Do not use in areas, on skin or in clothing. Mixers, loaders and others exposed to this product must wash their hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Use of protective clothing is required. Wash rubber; shoes plus socks, gloves and face shield; and chemical resistant apron. Discard personal protective equipment that has been stained or heavily contaminated with this product’s concentrate. Do not reuse them. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exists, use detergent and hot water. Keep and wash PPE separately from other laundry. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of protective clothing with soap and water. This product may cause skin sensitization reactions in some people.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For the control of microbial biofilms, bacteria, algae, and fungi, add GAX-26 to industrial recirculating water cooling towers and industrial recirculating closed loop cooling systems. Add GAX-26 at all points in the system to insure uniform mixing.

INITIAL DOSE: When the system is noticeably fouled, apply 148 – 883 ppm GAX-26 ([0.3 – 2.19 pounds or 4.5 – 28 fluid ounce of GAX-26 per 1000 gallon of water in the system]) weekly or as needed to maintain control.

SUBSEQUENT DOSE: When microbial control is evident, add 35 – 219 ppm GAX-26 (0.3 – 1.86 pound or 4.5 – 28 fluid ounce of GAX-26 per 1000 gallon of water in the system) weekly or as needed to maintain control.

AWASH WATER SYSTEMS
Add to the water source or water supply to insure uniform mixing. 35 – 883 ppm GAX-26 (0.3 – 7.46 pounds or 4.5 – 113 fluid ounce of GAX-26 per 1000 gallons of water in the system) depending upon the severity of contamination to control microbial biofilms, bacteria, fungi, and algae which cause fouling in industrial air washer systems.

INTERMITTENT OR SLUG METHOD
INITIAL DOSE: When the system is noticeably fouled, apply 148 – 883 ppm GAX-26 ([0.3 – 2.19 pounds or 4.5 – 28 fluid ounce of GAX-26 per 1000 gallon of water in the system]) weekly or as needed to maintain control.

SUBSEQUENT DOSE: When microbial control is evident, add 35 – 219 ppm GAX-26 (0.3 – 1.86 pound or 4.5 – 28 fluid ounce of GAX-26 per 1000 gallon of water in the system) weekly or as needed to maintain control. Badly fouled systems should be cleaned before treatment is begun.

CONTINUOUS FEED METHOD
INITIAL DOSE: When the system is noticeably fouled, apply 148 – 883 ppm GAX-26 ([0.3 – 2.19 pounds or 4.5 – 28 fluid ounce of GAX-26 per 1000 gallon of water in the system]) weekly or as needed to maintain control. Badly fouled systems should be cleaned before treatment is begun.

NOTE: For use only in systems that maintain effective mid-eliminating components.

STORAGE AND DISPOSAL

PESTICIDE STORAGE
Do not contaminate water, food or by storage, disposal, or cleaning of equipment. Do not apply this product in a way that will contact workers or others persons.

PESTICIDE DISPOSAL
Pesticides may be hazardous. Improper disposal of excess pesticide or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL
Do not reuse or refill this container. Triple rinse or pressure rinse nonreturnable container after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by procedures approved by state and local authorities.

KEEP OUT OF REACH OF CHILDREN

FIRST AID
IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 min. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 min. Remove contact lenses, if present, after first 5 min. then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. Contact a poison control center or doctor for treatment advice.

IF SWALLOWED: Do not induce vomiting unless told to do so by a poison control center or doctor. Have person sip a glass of water if able to swallow. Do not give anything to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

I N CAS E OF E M E R G E N C Y CALL 1-866-923-4919

NOTE TO PHYSICIAN: Probable mucosal damage may communicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and cyanosis may be necessary.

SEE SIDE PANELS FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

GENERAL

CONSULT FEDERAL, STATE, OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

ENVIRONMENTAL HAZARDS
This chemical is toxic to aquatic plants, fish and aquatic invertebrates. Do not discharge effluent containing this material into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. This material may cause a negative effect on aquatic life if discharged. Apply this material only as directed and in accordance with label directions. Do not discharge effluent containing this product to sewage systems without previously notifying the local sewage treatment authorities for approved alternative procedures.

For guidance, contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment. Disposal methods other than those specified are prohibited unless in accordance with specified on this label.

CORROSIVE LIQUID, STRONG ACID, CAUSING SEVERE BURNS OR SENSITIZATION TO THE SKIN.
