For Use in Homes and Other Residential Dwellings, Hospitals, Nursing Homes, Clinics, Medical Facilities, Businesses, Hotels, Motels, Restaurants, Schools, Institutions and Commercial Establishments

Needs No Rinsing
Kills: Aspergillus niger, Candida albicans, Escherichia coli, Klebsiella pneumoniae, Pandemic 2009 H1N1 Influenza A Virus, Pseudomonas aeruginosa, Salmonella choleraesuis, Staphylococcus aureus, Streptococcus pyogenes, Trichophyton mentagrophytes, Vancomycin-resistant Enterococcus faecalis, *Adenovirus Type 2, *Herpes Simplex Virus Types 1 and 2, *Influenza A, *Japanese Virus and Vaccinia (*Voxvirus) on hard inanimate non-porous environmental surfaces. Respiratory illnesses attributable to Pandemic 2009 H1N1 are caused by Influenza A Virus*. This product is a broad spectrum hard surface disinfectant that has been shown to be effective against Influenza A, *Japanese virus* and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 (formerly called “swine flu”).

Disinfects: Acts as a disinfectant on hard, non-porous environmental surfaces such as toilet seats, fixtures, glazed tile, wash bowls, shower stalls, walls, finished woodwork, counter tops, kitchen counter tops, tables and outside surfaces of appliances. The easy way to clean, disinfect and deodorize. Spray and wipe clean. Cleans and deodorizes without scorching or scratching. Use in nursery and sickroom, for garbage and diaper pails, for any washable hard, non-porous environmental surfaces that needs disinfecting as you clean.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Clean and Deodorize: Remove all gross filth or heavy soil from surfaces to be treated prior to using this product.

Shake Well Before Each Use. Point valve opening toward area to be cleaned, press down firmly and spray toward area to be cleaned, press down firmly and spray evenly. Wipe clean with a dry cloth, turning frequently. The product effectively controls the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces. Apply by holding can upright above the surface to be treated for a minimum of ten minutes prior to wiping. This product demonstrates effective fungicidal activity against pathogenic fungi, Trichophyton mentagrophytes, in areas such as locker rooms, dressing rooms, showers and both areas, exercise facilities and on clean hard, non-porous surfaces commonly contacted by bare feet. Follow disinfection directions. To Disinfect: After surface is cleaned, hold can upright above the surface to be treated. Spray until surface is thoroughly wet. Allow to dry without wiping or allow spray to contact treated surfaces for a minimum of ten minutes prior to wiping. When used as a disinfectant on food contact surfaces such as counter tops, tables and appliances, thoroughly rinse surfaces with potable water. Do not use on utensils, dishes or glasses. When handling items soiled with blood or body fluids, use appropriate barrier protection such as disposable latex gloves, gowns, masks and eye coverings.

Cleaning Procedures: Blood and other body fluids must be thoroughly cleared from surfaces and objects before application of this disinfectant. Contact Time: Spray surface to be treated 3-4 seconds, from a distance of 6-8 inches, until spray is thoroughly wet. Allow spray to dry without wiping or allow spray to contact treated surface for a minimum of ten minutes prior to wiping.

Disposal of Infectious Materials: Autolytic blood and other body fluids and disposed of according to federal, state and local regulations for infectious waste disposal. This product is not for use on medical devices or medical equipment surfaces.

Storage and Disposal
Pesticide Storage: Store in a cool, dry (preferably locked) place inaccessible to children and pets away from direct sunlight, windows, fumes and other sources of heat or ignition.

Disposal: Wastes resulting from the use of this product may be disposed on site or at an approved waste disposal facility. Container Disposal: Non-refillable container, do not refill or reuse container. Do not puncture or incinerate. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS
Hazardous to Humans & Domestic Animals CAUTION: Causes moderate eye irritation. Harmful if absorbed through the skin. Avoid contact with eyes, skin or clothing. Harmful if inhaled. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

First Aid
In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. If an Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If Inhaled: Move person to fresh air. If not breathing, call 911 or an ambulance, or give artificial respiration, preferably by mouth-to-mouth, if possible. If breathing continue artificial respiration. Call a poison control center or doctor for treatment advice.

For Hospital Use
Disinfects HIV-1 (AIDS Virus)*, Influenza A2/ Japan Virus* and Herpes Simplex Virus* Types 1 and 2 on Hard Inanimate Non-porous Environmental Surfaces

Disinfects HIV on Pre-Cleaned Environmental Surfaces Previously Soiled with Blood/Body Fluids in health care settings or other settings in which there is an unexpected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surface/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV) associated with AIDS Special Instructions for Cleaning and Decontamination Against HIV on Surfaces/Objects Soiled with Blood/Body Fluids: Personal Protection: When handling items soiled with blood or body fluids, use appropriate barrier protection such as disposable latex gloves, gowns, masks and eye coverings.

Cleaning Procedures: Blood and other body fluids must be thoroughly cleared from surfaces and objects before application of this disinfectant. Contact Time: Spray surface to be treated 3-4 seconds, from a distance of 6-8 inches, until spray is thoroughly wet. Allow spray to dry without wiping or allow spray to contact treated surface for a minimum of ten minutes prior to wiping. Disposal of Infectious Materials: Autolytic blood and other body fluids and disposed of according to federal, state and local regulations for infectious waste disposal. This product is not for use on medical devices or medical equipment surfaces.
