SUPPLEMENTAL LABELING

READ THE ENTIRE LABEL FOR ROUNDPUP POWERMAX™ HERBICIDE BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS SUPPLEMENTAL LABELING.

When using Roundup PowerMAX Herbicide as permitted according to this supplemental labeling, read and follow all applicable directions, restrictions, and precautions on the label booklet provided with the pesticide container and on this supplemental labeling. This supplemental labeling must be in the possession of the user at the time of pesticide application.

FOR CONTROL AND MANAGEMENT OF GLYPHOSATE RESISTANT RYEGRASS

Keep out of reach of children

CAUTION!

In case of an emergency involving this product, call collect, day or night, 314-694-4000.

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This labeling must be in the possession of the user at the time of herbicide application.

AVOID CONTACT OF HERBICIDE WITH FOLIAGE, GREEN STEMS, EXPOSED NON-WOODY ROOTS OR FRUIT OF CROPS (EXCEPT AS SPECIFIED FOR INDIVIDUAL ROUNDPUP READY CROPS), DESIRABLE PLANTS AND TREES, BECAUSE SEVERE INJURY OR DESTRUCTION MAY RESULT.

See “GENERAL INFORMATION” and “MIXING” sections of the label booklet for Roundup PowerMAX herbicide for essential product information.

DIRECTIONS FOR USE

This product may be tank-mixed with other herbicides for application in accordance with label directions. Follow all precautions and use instructions contained within the product’s labeling in accordance with the most restrictive label limitations. Some products have the potential to cause crop injury under certain conditions, at certain crop growth stages and/or under other circumstances. Read all labels for products used in tank mixtures to determine the potential for crop injury prior to use. Always predetermine the compatibility of all products used in the tank mixture by mixing small proportional quantities in advance. A tank mixture of this product with other herbicides may cause incompatibility, antagonism, or a reduction in product efficacy. Monsanto has not tested all tank mix product formulations for compatibility, performance, and crop safety.

Not all herbicides are registered in each state or for all usesites (orchards, non-crop areas, or ditch banks) or crops for the management of ryegrass. When Roundup PowerMAX herbicide is used in combination with other herbicides, refer to each product’s label and observe all precautions and limitations.

Preemergence to glyphosate resistant ryegrass:

Apply Roundup PowerMAX herbicide to control other emerged weeds, in a tank-mix with a preemergence herbicide product labeled for control of ryegrass.
Preemergence and Postemergence to glyphosate resistant ryegrass:

Apply Roundup PowerMAX herbicide to control other emerged weeds, in a tank-mix with a residual preemergence herbicide product and a postemergence herbicide product (other than glyphosate) labeled for control of ryegrass. Make applications before ryegrass exceeds 4 inches in height.

Postemergence to glyphosate resistant ryegrass:

Apply Roundup PowerMAX herbicide to control other emerged weeds, in a tank-mix with another postemergence herbicide product labeled for control of ryegrass. Make applications before ryegrass exceeds 4 inches in height.
