SQUIRREL PATROL PELLETED BAIT from RCO

For use around buildings to control California and Townsend Ground Squirrels in California, Nevada, Oregon, Washington, Idaho, and Utah only.

Ground Squirrel Bait is actually impregnated by the toxicant.

Active ingredient:
Diphacinone (CAS# 82966)
(2-Diphenylacetylmethylindanone) 0.0005%
Other ingredients ........................................ 0.9995%
Total .......................................................... 100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION FIRST AID

Have label with you when obtaining treatment advice.

If swallowed:
· Call poison control center, doctor or 1-800-858-7378 immediately for treatment advice.
· Have person sip a glass of water if able to swallow.
· Do not induce vomiting unless told to do so by a poison control center

The National Pesticide Telecommunications Network (NPTN) answers questions on medical emergencies, pesticide incidents, and health concerns.

NOTE TO PHYSICIAN OR VETERINARIAN
Contains diphacinone, an anticoagulant. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. For humans, dogs, or other animals that have ingested the product or have been exposed to a high concentration of the active ingredient in the bait, give vitamin K1 intravenously or orally. Check prothrombin times until values return to normal.

See left side panel for additional precautionary statement.

Manufactured for: RCO Intl., Inc.
P.O. BOX 191 • HARRISBURG, OR 97446

EPA EST. NO.: 67442-OR-2
EPA REG NO.: 38025-20-5042

NET WT. 4 LBS.

KEEP AWAY FROM FOODSTUFFS

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

—CAUTION—

May be harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Keep away from humans, domestic animals, pets. Keep away from food and foodstuffs. Wear waterproof gloves when handling bait or retrieving carcasses. Wash thoroughly with soap and water after handling bait.

ENVIRONMENTAL HAZARDS
This product is toxic to mammals, birds, and fish. Dogs and other predatory scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwater or residue.

ENDANGERED SPECIES CONSIDERATIONS
NOTICE: It is a Federal offense to use any pesticide in a manner that results in the death of an endangered species. Use of this product may pose a hazard to endangered or threatened species. Before applying this product, applicants must obtain information regarding the occurrence of endangered species and use limitations for this product. You may call EPA's "Endangered Species Hotline" at 1-800-424-9383 to obtain an "Interim Measures" pamphlet for your county. You may also consult local conservation extension service or state pesticide lead agency to determine if there are any requirements for use of this product.

In California, obtain a copy of the Interim Measures Bulletin for your county from the California Department of Pesticide Regulation or from the following internet site: http://www.cdpr.ca.gov/docs/psis/info.htm Where necessary to protect endangered species, use in tempo-resistant bait stations (like Wilco Ground Squirrel Baits) developed for this purpose in association with the California Department of Fish and Game. A publication on these stations is available at the website indicated above.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original closed container in a cool, dry place inaccessible to children and pets. Store separately from fertilizer and away from products with strong odors which may contaminate the bait and reduce acceptability. Carefully sweep up and dispose of any spillage of any spillage as in the "PESTICIDE DISPOSAL".

CONTAINER DISPOSAL:
PLASTIC: Triple rinse (or equivalent). Then offer for recycling or recondition, or puncture and dispose of in a sanitary landfill, or if allowed by state and local authorities, by burning, if burned, stay out of smoke.

NOTE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling is contrary to label instructions.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets, or other nontarget animals to rodenticides. To help prevent accidents.

1. Store product not in use in a location out of reach of children, pets, and livestock.

2. Apply this product in secured, tamper-resistant bait stations (like Wi1co Ground Squirrel Bait Stations). These stations must be resistant to destruction by dogs and by children under six years of age, and must be constructed and used in ways which prevent such children from reaching into bait compartments and obtaining bait. Stations must be secured so that they cannot be overturned by young children, pets, or winds. Stations used in areas open to livestock and/or nontarget wildlife must be secured so that the units cannot be overturned by any nontarget animals that have access to them.

3. Dispose of product container, and unused, spoiled, and un consumed bait as specified on this label.

USE RESTRICTIONS: For use only around buildings (including yards and flower gardens) in secured, tamper-resistant bait stations (like Wilco Ground Squirrel Bait Stations) to control California Ground Squirrel (Spermophilus beecheyi) and Townsend Ground Squirrel (Spermophilus townsendii) in California, Nevada, Oregon, Washington, Idaho, and Utah only. Do not apply this product by any method not specified on this label. This product may not be broadcast. Wear waterproof gloves when applying this product. With detergent and hot water, wash all implements used for applying bait. Do not use these implements for mixing, holding, or transferring foods or feed.

APPLICATION DIRECTIONS: Secure bait stations at locations where they will be readily accessible to target ground squirrels, preferably near active burrows. Secure stations 20 to 100 feet apart, depending on density of the population. Wear waterproof gloves and Newspapers (preferably long-handled) to transfer bait from the container to the station. Use 2 to 4 pounds of bait per bait station.

Check bait stations frequently to insure that an uninterrupted supply of bait is always available for at least 15 days or until signs of feeding have stopped.

POST-APPLICATION DIRECTIONS:
Using waterproof gloves, collect and burn (where permitted) or bury all visible dead animals. Discard leftover bait according to "Pesticide Disposal".
