Directions for Use
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

GENERAL INFORMATION
This pesticide product is to be used as a cattle feed-through pesticide for the control of horn flies. All feed ingredients listed on this product label must adhere to the specifications and limits (if applicable) ascribed by the Food and Drug Administration (FDA) for cattle feed use when mixed with this pesticide product. This product contains ethoxyquin, a preservative. The amount of ethoxyquin may vary according to the individual manufacturer’s formulation and will not exceed the 150 ppm maximum limit established for ethoxyquin by FDA, per 21 CFR 573.380.

FEEDING AND MANAGEMENT INSTRUCTIONS
Feed this product to cattle only. When used as directed, SWEETCAKE MINERAL TUB WITH ALTOSID® FLY CONTROL will provide sufficient (S)-methoprene insect growth regulator to prevent the emergence of adult horn flies from manure of treated cattle. Existing adult horn flies will not be affected. Start feeding before horn flies appear and continue use until cold weather marks the end of the horn fly season. Allow free-choice to cattle. Cattle should consume an average of 0.8 ounces of SWEETCAKE MINERAL TUB WITH ALTOSID® FLY CONTROL per 100 lbs. of cattle body weight per day, which is equivalent to 8 ounces per day for a 1,000-pound cow.

1. Assure cattle are not starved for nutrients prior to feeding SWEETCAKE MINERAL TUB WITH ALTOSID® FLY CONTROL.
2. This product contains added copper. Do not feed to cattle in close proximity to sheep or other species that have a low tolerance to supplemental copper.
3. Offer one SWEETCAKE MINERAL TUB WITH ALTOSID® FLY CONTROL for every 15 to 25 head of cattle.
4. Remove all other self-limiting nutritional supplements while the cattle are consuming this product.
5. Locate SWEETCAKE MINERAL TUB WITH ALTOSID® FLY CONTROL where cattle congregate (watering, loafing, shade areas).
6. Replenish SWEETCAKE MINERAL TUB WITH ALTOSID® FLY CONTROL on a regular basis as needed.
7. If intake of SWEETCAKE MINERAL TUB WITH ALTOSID® FLY CONTROL is below 0.8 ounces per 100 pounds cattle body weight per day, increase the number of feeding locations and/or change location(s) to areas more frequented by cattle.
8. If intake of SWEETCAKE MINERAL TUB WITH ALTOSID® FLY CONTROL is above 0.8 ounces per 100 pounds cattle body weight per day, reduce the number of feeding locations and/or change location(s) to areas less frequented by cattle.
9. Introduction of this product after adult horn fly infestation is established will require treatment of cattle with adulticides if elimination of the adult fly population is desired.

STORAGE AND DISPOSAL:
Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store SWEETCAKE MINERAL TUB WITH ALTOSID® FLY CONTROL in a cool, dry place.
PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available, or puncture and dispose of in a sanitary landfill or by incineration or if allowed by state and local authorities by burning. If burned, stay out of smoke.

ENVIRONMENTAL HAZARDS: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

SELLER MAKES NO WARRANTY, EXPRESSED OR IMPLIED, AS TO DESCRIPTION, UTILITY, PRODUCTIVENESS OR ANY OTHER MATTER, EXCEPT AS TO GUARANTEED ANALYSIS.
