dual action 1”
chlorinating tablets
protects against bacteria and algae
• sun protected for extended chlorine life
protege contra las bacterias y las algas
• protección solar para extender la duración del cloro

sanitize

DANGER
Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your pool or spa. Do not remove floater or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. See side label for First Aid and Precautions.

ACTIVE INGREDIENTS:
Trichloro-s-Triazinetrione .......... 93.5%
Copper Sulfate Pentahydrate ....... 1.5%
INERT INGREDIENTS ............... 5.0%
TOTAL ................................ 100.0%
Available Chlorine .......... 84%

Net Wt. 5 lbs. (2.27 kg)
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

METHOD OF APPLICATION: Use in a floating dispenser, automatic chlorinator or feeder designed for this product or place in skimmer. Do not allow this product to get damp or wet before use. Do not allow this product to contact other water treatment products. Use in a new chlorinating device or any device which has previously contained only this product or whose active ingredient is trichlоро-s-triazinetome. If placed in the skimmer, run the pump a minimum of eight hours daily. For crystal clear pool water, follow our 4 step pool care program: Step 1: Test and balance pool water, Step 2: Sanitize, Step 3: Shock at least once a week, and Step 4: Add algaeide as directed.

DO NOT Use in floaters or feeders that have been used with other water treatment products. If placed in skimmer, run the pump a minimum of eight hours daily. Make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer.

DO NOT Throw tablets directly into pool. DO NOT Permit tablets to contact plastic pool linings or metal objects. DO NOT Use with any other tablets or sticks in the same skimmer, floater, or feeder. DO NOT Use in any chlorinating device which has been used with other chlorinating compounds. DO NOT Use bare hands when handling product. DO NOT Mix with other products or dissolve before use. DO NOT Pre-mix this product. Only add this product directly to your pool.

WATER BALANCE: For best product performance, swimmer comfort and crystal clear water, use HTH® pool care products to maintain the following water balance:

<table>
<thead>
<tr>
<th></th>
<th>Acceptable Range for Balance</th>
</tr>
</thead>
<tbody>
<tr>
<td>pH</td>
<td>7.2–7.6</td>
</tr>
<tr>
<td>Total Alkalinity</td>
<td>80–120 ppm</td>
</tr>
<tr>
<td>Calcium Hardness</td>
<td>Above 200 ppm</td>
</tr>
<tr>
<td>Available Chlorine</td>
<td>1–4 ppm</td>
</tr>
</tbody>
</table>

Follow label directions for each product and allow each product to dissolve and disperse before adding additional products to the pool. Use an HTH test kit that measures all these ranges. Re-entry into treated pools is prohibited with chlorine levels above 4 ppm for risk of bodily injury.

ROUTINE CHLORINATION: Add four one-half ounce tablets per 10,000 gallons of pool water every other day or as often as needed to maintain a chlorine residual at 1–4 ppm. Follow “METHOD OF APPLICATION." This dosage may vary depending upon bather load, water temperature and other conditions. Pool should not be entered until the chlorine residual is 1–4 ppm as measured with a reliable test kit.

OPENING YOUR POOL: Balance pool water, shock treat, and stabilize your pool using HTH Stabilizer and Conditioner. Then follow “ROUTINE CHLORINATION” directions.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed. Irritating to nose and throat.
• Open in a well ventilated area. Do not breathe dust or fumes. • Do not get in eyes, on skin, or on clothing. • Wear goggles and rubber gloves when handling this product. For additional protection of skin, wear long sleeves and long pants. • Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. • Remove and wash contaminated clothing before reuse. • Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

PHYSICAL AND CHEMICAL HAZARDS:
DANGER. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Add only into water.
• Do not allow to become wet or damp before use. • Do not remove floater or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
• Keep all foreign matter, including other water treatment products, away from this product. • Do not use this product in a floater or feeder that has been used with any other product. • Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other...
water treatment products before putting this product in the skimmer. **Strong oxidizing agent. This product can increase fire intensity.**
- Keep away from heat and from flame and burning material (like a lighted cigarette).

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**STORAGE AND DISPOSAL:**
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE “EMERGENCY HANDLING”.

**EMERGENCY HANDLING:** In case of contamination or decomposition
- Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

**FIRST AID:**
**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.
