CORROSIVE LIQUID, ACIDIC, ORGANIC, N.O.S., (2-BROMO-2-NITRO-1,3-PROPANEDIOL)

Produced in accordance with the provisions of 189.60 and 191.7 of the Code of Federal Regulations.

DIRECTIONS FOR USE: Is a variation of the product to be used in a manner inconsistent with labeling

ACTIVE INGREDIENT:

2-bromo-2-nitro propane-1,3-diol...30%

TOTAL...100%

PRODUCT DESCRIPTION:

Reputed is a viscous liquid used for controlling the growth of bacteria and algae. It is intended for use only on water that contains no free or dissolved chlorine in a concentration of at least 0.25 ppm, to control the growth of bacteria and algae and to prevent the formation of slime. This product is designed for use on the outside of the receiving tank and the outside of pipes and valves. This product is not to be used on the interior of pipelines, the inside of the receiving tank, or the interior of vessel discharges. This product is not to be used on the inside of pipelines, the inside of the receiving tank, or the interior of vessel discharges.

ENVIROMENTAL HAZARD: This product is to be used in accordance with all Federal, State, and local laws and regulations governing its use. If any discharges, spills, or leaks occur, it is necessary to contain the product, and then dispose of it in a manner consistent with the applicable law or regulations.

During use, proper ventilation should be maintained to prevent exposure to hazardous fumes or airborne dust. Exposure to hazardous substances should be minimized by using approved respiratory equipment. In case of contact with skin, wash thoroughly with soap and water. If eyes are irritated, flush with water for 15 minutes. If ingested, do not induce vomiting. Give water. If breathing is difficult, give oxygen. Consult a physician.

STORAGE AND DISPOSAL:

Do not consume water: Tox., or heat to decompose.

POTENCY: Harmless, weakly toxic. DF: 16. Do not contaminate water, food, or

Carcinogenicity: Carcinogenicity:

Mutagenicity: Mutagenic.

ECOTOXICITY: Toxic to aquatic species. W: 1.25.

EPA HAZARD RATING: Category III

ECOTOXICITY:

Dissolution: Dissolves in water: W: 0.60.

Dissolution: Dissolves in water: W: 0.60.
