Note to Physician: No specific antidote is available. Treat the patient symptomatically.

**ENVIRONMENTAL HAZARDS**
This pesticide is extremely toxic to fish and aquatic invertebrates. Remove from premises or tightly cover fish tanks and disconnect aerators when applying indoor control where such containers are present. Do not apply directly to water, to areas where water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when cleaning equipment or when disposing of equipment wash waters. Apply this product only as specified on the label. This pesticide is highly toxic to bees exposed to direct treatment or residues on crops or weeds. Do not apply Tempo® SC Ultra Pest Control Concentrate or allow it to drift onto crops or weeds on which bees are actively foraging. Additional information may be obtained by consulting your Cooperative Extension Service.

**GENERAL INFORMATION**
Tempo SC Ultra Pest Control Concentrate will provide effective control of the pests listed on this label.

Tempo SC Ultra Pest Control Concentrate is intended for use as a general surface, spot, or crack and crevice spray in and around buildings and structures and their immediate surroundings. Permitted areas of use include, animal runs, animal holding areas, animal quarters, boarding kennels, chicken houses (where birds are not present), dairy barns, feed lots, horse stalls, kennels, livestock barns and holding facilities, storage areas, storage rooms, trailers, turkey houses, utility rooms, and rooms in animal facilities.

Not for use in and around residential areas. Do not use in commercial food/feed handling establishments, restaurants or other areas where food is commercially prepared, processed or served. Do not use food utensils such as teaspoons or measuring cups for food purposes after use with insecticides.

Cleaning of all areas prior to use of Tempo SC Ultra Pest Control Concentrate will increase levels of control. Any foodstuffs infected with pests should be removed and destroyed.

**MIXING INSTRUCTIONS**
Tempo SC Ultra Pest Control Concentrate is intended to be mixed with water and applied with pump style sprayer or trigger spray bottle. Add the appropriate amount of product while filling the sprayer with water, and shake to mix. Use 1 Tablespoon (16 milliliters) of Tempo SC Ultra Pest Control Concentrate per 1,000 IP in 1 gallon of water to adequately cover the area being treated, but which will not allow dripping or run off to occur. Diluted spray mixture can be stored overnight and applied the following day; however, mixture should be shaken prior to use to thoroughly mix the product.

Tempo SC Ultra Pest Control Concentrate will not stain or damage painted or varnished surfaces, plastics, fabrics or other surfaces where water applied alone causes no damage.

**INDOOR PEST CONTROL**
For use in animal housing, including, livestock barns, horse stables, and other animal quarters to control crawling and flying insect pests. Apply diluted spray as a general surface and/or a crack and crevice spray. Control will be enhanced when facilities are cleaned and interior applications are supplemented with exterior perimeter treatments. Do not make interior applications of Tempo SC Ultra Pest Control Concentrate in areas of facility where animals are present. Do not make applications to animal feedstuffs or watering equipment.

**GENERAL SURFACE APPLICATIONS**
For general pests, occasional invaders, and flying insects apply the diluted spray evenly to walls, floors, between, behind and beneath equipment, appliances, around floor drains, window and door frames, and on the underside of shelves, drawers, and in similar areas. Applications may be made to floor surfaces along walls and around air ducts; however do not treat the entire area or floor or...
