STORAGE AND DISPOSAL

This product is a microbiocide in the manufacture of paper and paperboard products. BUSAN 1215 is used as a microbiocide in the manufacture of paper and paperboard that contacts food. Keep container tightly closed. Store in a dry place. Leaking or damaged drums disposed of in a sanitary landfill. Keep container closed when not in use.

CONTAINER HANDLING:
NONREFILLABLE CONTAINER. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. (Capacity of 5 gallons or less) To clean the container prior to refilling or disposal, use a triple rinse wash system that rinses all interior sides with water and that is rated at >40 psi and >120°F. Pressure wash the container for a length of time that ensures that a minimum 25% of the container volume of water can be neutralized by the addition of sodium metabisulfite until the chloramine is no longer detected.
