**STORAGE AND DISPOSAL:**
Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Protect from freezing.

**PERISHABLE DISPOSAL:** Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:**
Non-returnable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

**DRUMS:** Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Repeat this procedure two more times.

**PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS. CAUTION**

 Harmful if swallowed or absorbed through the skin. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling. Follow personal protective equipment manufacturer's instructions for cleaning protective equipment immediately after handling this product. Wash outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**ENVIRONMENTAL HAZARDS:**
Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PRECAUTION:** Do not use this product in recirculating cooling water systems or decorative and ornamental fountains. This product is an Aqueous Dispersion.

**DIRECTIONS FOR USE -- RECIRCULATING COOLING WATER SYSTEMS, DECORATIVE AND ORNAMENTAL FOUNTAINS:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

**INDUSTRIAL USE APPLICATION RESTRICTIONS:**
Proper open pour of this product is prohibited. Mixing, loading, and application must be with a closed system (one that prevents the chemical from contacting handlers or other persons) and during handling of the chemical personal protective equipment must be worn.

**PROTECTIVE EQUIPMENT:**
- Wear eye protection such as goggles or safety glasses.
- Wear protective clothing such as long-sleeved shirt, long pants, shoes, socks, and chemical-resistant gloves.
- Chemical-resistant apron must be immediately available during loading and application and must be worn in case of spill, splash, or other exposure to the concentrate.

**WHEN TO APPLY:** Heavy algae growth contributes to restricted water flow in recirculating cooling water systems, thereby impairing the efficiency of the system, especially heat-exchange efficiency. This product alone or a combination of this product or chlorine or a chlorine releasing agent (such as sodium, calcium, or lithium hypochlorite) used regularly controls algae and prevents re-establishment of algae when used according to directions.

Clean badly fouled systems before treatment. It is recommended that treatment be performed prior to the first signs of algicidal growth, or after cleaning a system whose efficiency is already impaired by algicidal growth. Apply at a point in the system where the product will be uniformly mixed, such as in the lower sump.

**TIME OF APPLICATION:** Treatment will be necessary to have an appropriate dosing pump and know the volume, half-life (makeup/blowdown rate), evaporative rate, and windage loss of the system.

**MAINTENANCE TREATMENT:**
Concentrations below the recommended level of 25 ppm of product may give adequate control, depending upon the strains of algae present. Experience will demonstrate the level of product required.

**OTHER INGREDIENTS:**
- 2-(tert-butylamino)-4-chloro-6-(ethylamino)-S-Triazine
- TOTAL:

**ACTIVE INGREDIENT:**

Tebuthiophosphate

- 4.0%

**FOR CONTROL OF ALGAE IN RECIRCULATING COOLING WATER SYSTEMS, AND IN DECORATIVE AND ORNAMENTAL FOUNTAINS:**

**TREATMENT OF ALGAE IN RECIRCULATING COOLING WATER SYSTEMS AND IN DECORATIVE AND ORNAMENTAL FOUNTAINS:**

**APPLY THIS PRODUCT AT A POINT IN THE SYSTEM WHERE THERE IS GOOD MIXING SUCH AS AT THE RETURN IN THE COOLING TOWER BASIN NEAR THE REcirCULATING WATER PUMP OR NEAR THE OUTLET OF THE REcircULATING WATER PUMP. THIS PRODUCT IS SLOW TO REDUCE ALGAE FROM A SYSTEM AND THEREFORE ITS ACTION WILL REDUCE THE RISK OF LARGE ALGAE CLUMPS POSSIBLY CLOGGING THE DISTRIBUTION DECK ORTIALS OR THE HEAT EXCHANGER OF A RECIRCULATING COOLING WATER SYSTEM.

**CHLORINATED SYSTEMS AND/OR BROMINATED SYSTEMS:**

**I**

**CONTINUOUS ADDITION:**

**INITIAL TREATMENT:** To keep systems free of algae, maintain up to 3 fluid ounces per 1000 gallons of water, or about 25 ppm, of the product in the system water (which is equivalent to about 1 ppm active ingredient) in conjunc-

**NOTE:**

This product is compatible with other water treatment products, including polymeric anionic scale inhibitors and dispersants, has low-toxic properties, and is non-corrosive to piping and equipment.

Treat the water early in the algal growth period (typically early spring) before the system is in jeopardy of becoming fouled by algae. For maximum effectiveness, systems with heavy algae growth should be cleaned before using this product.

**BELLACIDE® 325**

For control of algae in recirculating cooling water systems, and in decorative and ornamental fountains.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**FIRST AID:**

**IF SWALLOWED:**

- Call poison control center or doctor immediately for treatment advice.
- Have the label or MSDS with you when calling a poison control center or doctor.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:**

- Take off contaminated clothing
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Remove contaminated protective equipment immediately after handling this product.

**IF IN EYES:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes. Rinse continuously

**IF INHALED:**

- Move person to fresh air
- Call a poison control center or doctor for treatment advice.

**IF EXPOSED:**

- Move person to fresh air
- Call a poison control center or doctor for treatment advice.

**NOTE:**

This product is an Aqueous Dispersion.
