ClearWood-MW1
FOR THE PRESERVATION OF WOOD-BASED PRODUCTS AGAINST BIODETERIORATION

ACTIVE INGREDIENTS:
Tebuconazole, α-[2-(4-Chlorophenyl)ethyl]-β-(1,1-dimethylallyl)-
1H-1,2,4-triazole-1-ethanol .......................................................... 88.34%
Imidacloprid, 2-Imidazolidinimine, 1-(6-chloro-3-pyridinyl)
methyl -N-nitro ........................................................................... 0.23%

OTHER INGREDIENTS: ................................................................. 88.34%
TOTAL:.................................................................................. 100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID

If in Eyes: *Hold eye open and rinse slowly and gently with water for 15-20 minutes.
*Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
*Call a poison control center or doctor for treatment advice.

If Swallowed: *Call a poison control center or doctor immediately for treatment advice.
*Have person sip a glass of water if able to swallow.
*Do not induce vomiting unless told to by a poison control center or doctor.
*Do not give anything by mouth to an unconscious person.

If on Skin: *Take off contaminated clothing.
*Rinse skin immediately with plenty of water for 15-20 minutes
*Call a poison control center or doctor for treatment.

If Inhaled: *Move person to fresh air.
*If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
*Call a poison control center or doctor for further treatment advice.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Refer to additional precautionary statements elsewhere on the label under the heading, "Precautionary Statements: Hazards to Humans and Domestic Animals."

Have the product container or label with you when calling a poison control center or doctor.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGERS: Corrosive, causes irreversible eye damage or skin burns. Harmful if swallowed, inhaled or if absorbed through skin. Do not breathe vapors or spray mist. Do not get in eyes, on skin or on clothing. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash separately before reuse.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to estuarine invertebrates and other aquaticorganisms. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS
Do not use or store near heat or open flame

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Read the entire directions for use before using ClearWood-MW1.

PERSONAL PROTECTIVE EQUIPMENT (P.P.E.)
Applicators and other handlers must wear the following personal protective equipment:
- Coveralls over long sleeved shirt and long pants.
- Socks and chemical resistant footwear.
- Goggles or face shield
- Chemical resistant gloves such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, PVC or viton.

APPLICATION
ClearWood-MW1 may be applied by dip, or pressure treatment methods. Solution uptake and treatment conditions for each method should result in a 250-2500 ppm retention of active ingredient in the treated article. Treated wood should be used only for above ground uses.

For pressure treatment, follow the general requirements of American Wood Protection Association Standards U1 and T1. For dip treatment, immerse wood completely until enough solution has been absorbed to meet the retention requirements given above. Use dip treatment procedures consistent with the equipment being used and standard treatment practices.

ClearWood-MW1 can be tank-mixed with other pesticide products labeled for wood treatment. Read and follow the label of each tank mix product used for precautionary statements, directions for use, application rates, and other restrictions.

STORAGE & DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE:

PESTICIDE DISPOSAL:
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these pesticides cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable Container. Do not reuse or refill this container. Empty tote container must be returned to a tote collection agent.

Residue Removal: Cleaning container before final disposal is the responsibility of the person disposing of the container. To clean container before final disposal, fill container about 10 percent full with water. Agitate container vigorously; discard rinsate according to pesticide disposal instructions; repeat this rinsing procedure two more times. For additional container disposal information, contact product supplier.
