ProKlenz® ONE

For the Pharmaceutical, Cosmetic and Medical Industry

Sterile Corporation

Pesticide storage:
Do not store on soil. Avoid harming or impacting of soil container

Diabetes:
ProKlenz ONE is effective against Streptococcus pneumoniae, Salmonella enterica, and Pseudomonas aeruginosa when used at a 1% concentration of product per gallon of water in 5% blood serum and 250 ppm of hard water at 60° C. ProKlenz ONE is active on stainless steel surfaces. Prepare a 1% solution by adding 1.0 ounces per gallon of water. Product must be applied to surfaces by circulating, course spray or direct application. Prepare and apply as directed above for disinfection. The product must remain in contact with the surface at 60° C for at least 10 minutes. Do not apply product by manual spraying or by other means that would produce particles that are inhalable.

**HAZARD to HUMAns AnD DoMestIC AnIMALs**

Corrosive:
Causes irreversible eye damage and skin burns. May be fatal if swallowed. Harmful if inhaled or absorbed through skin. Do not get in eyes, on skin, or on clothing. Avoid breathing vapor or spray mist. Wear chemical-resistant gloves, long-sleeved shirt, long pants, socks and shoes. When mixing and loading, wear a chemical-resistant apron. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or, using restroom. Remove and wash contaminated clothing before reuse.

Personal Protective equipment (PPE): Follow the manufacturer's instructions for cleaning/maintaining PPE. It is recommended for use to clean hard non-porous surfaces in manufacturing equipment and automatic washing equipment including mixing vessels, and packaging equipment. Surfaces should be rinsed with water after use of this product.

Diabetes:
ProKlenz ONE is active on stainless steel surfaces. Prepare a 1% solution by adding 1.0 ounces per gallon of water. Product must be applied to surfaces by circulating, course spray or direct application. Rinse product contact surfaces with potable water.
