Anti-Scald Agent for Postharvest Treatment of Pears by Thermal Fogging

CAUTION - CUIDADO

EPA Reg. No. 64864-60  EPA Est. No. 64864-WA-1

First Aid

If in eyes - Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on skin or clothing - Wash skin with plenty of water for 15 - 20 minutes. Take off contaminated clothing.

If inhaled - Move person to fresh air. Call a poison control center or doctor for further treatment advice.

If swallowed - Do not induce vomiting unless told to do so by a poison treatment advice. Call a poison control center or doctor for treatment advice.

Storage

Do not store near heat, food, or feed by storage or disposal.

Disposal

Waste resulting from the use of this product may be disposed of in approved disposal area.

Precautionary Statements

Hazard to Humans and Domestic Animals

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wear protective eyewear. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

Personal Protective Equipment (PPE)

Some materials that may be airborne from this product to which the user may be exposed, are potentially harmful. Use the following procedures and precautions.

User Safety Recommendations

Users should:

- Wash hands before eating, chewing, gumming, using tobacco or using toilet.
- Remove clothing / PPE immediately if pesticide gets inside. Then wash thoroughly and change into clean clothing.

Applicator Operator

- Place the Electrofog machine horizontally outside the treatment room at a height of about 3 feet. Insert input pipe into product container and start pump. Stop pump when product has run out of the container. Start pump again and start pump again when fog exit temperature reaches 180°F. Do not start pump when exit temperature reaches 180°F. Adjust pump as necessary during operation to maintain 180°F.

Application Procedure

- Do not breathe the fog.
- Turn off room cooling systems and humidifiers 12 hours prior to and during treatment.
- Do not turn on air conditioners, central or wall units, before, during and for 12 hours after application.

Have the product container or label with you when calling a poison control center or doctor for further treatment advice. This product, subject to the exceptions noted below, which are beyond the Company's control. The Company makes no other representation or warranty, expressed or implied, regarding the suitability of the product for any particular purpose.

Application Restrictions

Do not apply this product in a way that will contact workers or other persons.

Personal protective equipment should be used by the person dispensing this product, but not by any other person.

Have the product container or label with you when calling a poison control center or doctor for treatment advice.

For best control of scald, apply to Anjou pears no later than one week after harvest. Allow the fog to stay overnight or until the fog has totally disappeared (about 5 hours post-treatment) before resting fans and cooling systems.
