How!

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

**To Keep Water Clean:**
- Test and balance water before using this product. Visit www.aquachem.com for complete pool balancing instructions.
- If the pool is cloudy or green, add a granular shock product; follow application directions on that product.
- If the pool is clean and clear, add a chlorinating product; follow application directions on that product.
- Add tablets to an appropriate feeder or float to bring chlorine level to 1-4 ppm; refill as needed to maintain 1-4 ppm. When chlorine level is adjusted to 1-4 ppm, add the proper addition of sanitizer product to chlorinators. Use device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not mix or store container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water.
- Do not add other chemicals through the feeder when using this product as an explosion might occur.
- Keep direct contact with pool surface or equipment may cause damage. Do not add tablets in dry or near water. Never add water to product. Always add product to large quantities of water. When using automatic feeding devices, always follow manufacturer’s directions as to the proper addition of sanitizer product to chlorinators. Use device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion.

**FIRST AID:**
- If swallowed, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.
- IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance. Then give CPR if necessary.
- IF IN EYES: Hold eye open and rinse immediately for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

**PHYSICAL OR CHEMICAL HAZARDS:**
- Corrosive: Causes irreversible eye damage and decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water.
