ULTRA-KOTE

PRODUCT DESCRIPTION: This product is a hard, high-strength finishing designed for maximum finishing performance in moderate to high finishing conditions. This product has the added benefit of excellent color homogeneity and stability. The fast dry formula of this product allows your job to be painted and touched in the same day. This product is recommended for use on fiberglass, wood or properly primed steel and sheet. Apply at least two coats of brush, roller or spray. Do not apply when temperature is below 50°F (10°C).

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

COMPATIBILITY: This product is compatible with most other air-drying paints. Property of conditions and have been tested. Soft air-drying paints and paints that are in poor condition will need to be removed or overcoated with Primers® before applying this product.

W/D. - Less than 330 gram/liter
22.5 lbs. (gallon)
THINNER: SPECIAL THINNER 216 or
BRUSHING LIQUID 333
THINNING: Thin only when necessary
Do not exceed 10% maximum.
CLEAN-UP: SPECIAL THINNER 216 or BRUSHING LIQUID 333.

*24hr air temperature falls below 50°F (10°C) during the 10 hour dry time extend the dry times to 24 hours minimum.

APPLICATION SYSTEMS
PREVIOUSLY PAINTED - GOOD CONDITION: Remove all traces of base paint and contamination by sanding the entire surface with 80 grit sandpaper; wipe surface clean with Special Thinner 216. Apply at least 2 coats of this product.

PREVIOUSLY PAINTED - POOR CONDITION: Completely remove all air-drying paint, using Intelex® 2954. Sand and wipe clean with FiberglassSolvent Wash 302.

BARE FIBERGLASS (POLYESTER OR VINYLESTER) - SURFACE PREPARATION:

BARE FIBERGLASS: It is very important that bare fiberglass be properly prepared in order to prevent delamination of the air-drying paint. Begin by sanding the surface thoroughly with a stiff brush using Intelex All-Purpose Boat Soap and water to remove dust and contamination. Rinse with fresh water to remove the soap residue and allow to dry. Remove mold release wax using one of the following products: Intelex Fiberglass Surface Prep of Intelex Fiberglass Solvent Wash following the product label instructions. To be certain that all of the contamination has been removed, run water over the surface, if the water breaks up or separates, clean again.

When the water sheds off, the contamination has been removed. After the surface has been properly cleaned, proceed with one of the application systems below.

BARE FIBERGLASS - NO SAND SYSTEM: Clean the surface following the procedure described above. Apply one coat of Intelex® 2954 or Fiberglass to Sand Primers 1% 200 by brush or roller following the label instructions for applying the primer and overcoating with air-drying paint. Apply two coats of this product allowing for the appropriate dry times.

BARE FIBERGLASS - SANDING SYSTEM: Clean the surface following the preparation procedure above. Sand the entire surface with 80 grit sandpaper and wipe clean with Fiberglass Solvent Wash 202 to remove sanding residues. Repair any surface imperfections with Whitecoat 1%WS. Sand and wipe clean. Apply two coats of this product allowing for the appropriate dry times.

BARE WOOD: Sand the entire surface with 80 grit sandpaper, wipe surface clean with Intelex Special Thinner 216. Repair imperfections with Whitecoat 1%WS. Sand and wipe clean. Apply the first coat of this product thinned 10% with Special Thinner 216 or Brush-Ease 433. Fill in seams with Seams Compound or necessary. Apply two more coats of this product unthinned, allowing appropriate dry times.

UNDERWATER METALS: Contact the Intelex Technical Service Department at 1-800-468-7583 for full information on how to properly prime underwater metals. DO NOT USE ON ALUMINUM.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants and hat. May be fatal if swallowed or inhaled. Do not breathe vapor or spray mist. While spraying paint or sanding or sandblasting boat surfaces, wear a mask of a respirator jointly approved by the Mine Safety and Health Administration and the National Institute of Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

FIRST AID:

If swallowed:
• Call a poison control center of doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If on skin or clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice if irritation.
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance and give artificial respiration, preference mouth-to-mouth if possible.

If in eyes:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

Other: Have this product container or label with you when calling a poison control center or doctor or going for treatment.

ENVIRONMENTAL HAZARD: This material is toxic to fish. Do not apply directly to water by draining of equipment of disposal of waste. Do not allow chips and dust generated during paint removal to enter water. Do not apply paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, aqueducts, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer system without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office at the EPA.

PHYSICAL OR CHEMICAL HAZARDS: Flammable. Keep away from heat and open flame.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage of disposal. Open dumping is prohibited.

PRESERVE DISPOSAL: Pesticide wastes are acutely hazardous, improper disposal of excess pesticides, spray mixture or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental control Agency, or the Hazardous Waste Recycling facility, or the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows:

Empty the remaining contents into applicators equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shakes for 10 seconds. Pour into applicator equipment or a mix tank and store drain for 4 hours or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

FOR CHEMICAL EMERGENCY, SPILL, LEAK, EXPOSURE OR ACCIDENT, CALL TOLL FREE: CHEMTREC 1-800-438-4328 (DAY OR NIGHT) MEDICAL ADVISORY: CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-555-6541.
