FIRST AID

If swallowed:
- Call a Poison Control Center or doctor immediately for treatment advice.
- Do not induce vomiting unless told to by a Poison Control Center or doctor.
- Have the product container or label with you.

If in eyes:
- Rinse eyes with plenty of water for 15-20 minutes. Do not rub eyes.
- Call a Poison Control Center or doctor immediately for treatment advice.
- Have the product container or label with you.

If on skin:
- Wash skin immediately with plenty of water for 15-20 minutes.
- Call a Poison Control Center or doctor immediately for treatment advice.

If on hair:
- Allow person to wash hair.
- Call a Poison Control Center or doctor immediately for treatment advice.

In case of an emergency, dial 911 or go to the nearest hospital.

ENVIRONMENTAL HAZARDS:
This product is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, wetlands, ovestrip or other waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PESTICIDE DISPOSAL:
- Pesticides are acutely hazardous. Improper disposal of excess pesticides, spray mixture, or mist can be a violation of Federal Law. If these wastes are to be disposed of, it must be done in accordance with local regulations. Contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative of the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:
- Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by States and Local Authorities.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
- Causes Severe Eye Damage and Skin Burns - May Cause Allergic Skin Reaction - Harmful or Fatal if Swallowed or Absorbed Through Skin.
- Do not get in eyes, on skin, on clothing or cause skin sensitization. Wear rubber gloves when handling. Wash thoroughly after handling:
- Avoid breathing vapor or mist. Avoid contamination of food.

DIRECTIONS FOR USE:

For Use in Hydrocarbon Preservation:
To control the growth of problem microorganisms associated with the fuel.

For Storage Above Water:
Add 1 gallon of ValTect BioGuard ULS Microbiocide to each 1000 gallons of water in the bulk storage system to achieve a concentration of approximately 100 ppm. To facilitate mixing, dissolve each gallon of ValTect BioGuard ULS Microbiocide in 100 gallons of water and add this solution directly to the water phase in the tank with minimal agitation.

For Storage in Tanks Without Intentional Water:
Add 125-1 gallon of ValTect BioGuard ULS Microbiocide directly to each 1000 gallons of water in the bulk storage system to achieve a concentration of approximately 125-1000 ppm.

In a Fuel Treatment Pre-Mix:
ValTect BioGuard ULS Microbiocide may be mixed with other fuel additives for addition to fuel. The end user must and should ValTect BioGuard ULS Microbiocide to the pre-mix to provide 125-1000 ppm of ValTect BioGuard ULS Microbiocide in the treated fuel.
