• Broad-spectrum activity
• Hospital-grade disinfectant effective against Staphylococcus aureus (Staph), and Pseudomonas aeruginosa (Pseudomonads)
• Non-iodine and non-oxidizing. Will not etch or stain delicate surfaces.
• Effective against "HIV-1 (AIDS virus) and "Hepatitis simplex type 2.
• Controls mold and mildew.
• Dissolves soap scale and foams away dirt.
• Disinfects, cleans, and deodorizes in one labor-saving step.
• Contains no CFCs or other ozone-depleting substances.
• Federal regulations prohibit CFC propellants in aerosols.
• Deodorizes areas which are generally hard to keep fresh-smelling (such as garbage storage areas, empty garbage bins and cans, basements, restrooms, and other areas prone to odors caused by microorganisms).
• When used as directed, demonstrates effective disinfection against Staphylococcus aureus, Salmonella Choleraesuis and Pseudomonas aeruginosa, plus meeting ACGAC USA EPA Test requirements for hospital disinfector. Efficacy tests have demonstrated that it is an effective one-step, cleaner disinfectant in the presence of organic soil (5% blood serum).
• This product is fungicidal against pathogenic fungi (T. mentagrophytes) when used as directed on hard surfaces found in the bathroom, shower stall and toilet room, or other clean, hard, nonporous surfaces commonly contacted by bare feet.

**FOR MEDICAL USE ONLY.**

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**SHAKE BEFORE USING**

**GENERAL USE RECOMMENDATIONS:** Recommended for use in households, institutions, restaurants, hospitals, nursing homes, institutions, offices, schools, colleges, airports, hotels, motels, greenhouses, and kennels. Disinfects, cleans, and deodorizes non-porous, hard, nonporous surfaces such as floors, walls, metal surfaces, stainless steel surfaces, plastic surfaces, such as plastic piping, polyethylene, polyvinyl, etc.; plastic-coated chains; plastic-coated wire; glassware cabinets, garbage cans, laundry equipment, sinks, toilets, shower stalls, exterior wall surfaces, empty basins, knobs, handles, railings, tables, chairs, countertops, bathtubs, basins, hampers, cabinets, bed springs, vehicles (ships, trains, and airplanes), and many other similar public and residential surfaces which could harbor and transmit dangerous microorganisms.

**TO CLEAN:** Shake can. Spray evenly over surface, allowing sufficient time for the foam to penetrate heavily soiled deposits. Wipe off. Chrome fixtures may be rinsed for high shine.

**TO DISINFECT:** Clean surface thoroughly as instructed above. Then apply a thin coat of foam, making sure to cover entire surface to be disinfected. Allow foam to remain for at least 10 minutes, then wash off or allow to air dry. This product is not for use on medical device surfaces.

**MILDEW/STAT-EXAMPLES:** Follow the disinfection instructions above. Repeat application weekly or when growth reappears.

**FUNGICIDAL DIRECTIONS:** Kills Trichophyton mentagrophytes (the cause of athlete’s foot fungus) on environmental surfaces. For use in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities on surfaces such as floors and shower stalls. Follow disinfection directions.

**KILLS HIV-1 (AIDS VIRUS) ON PRECLEANED, ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood / body fluids, and in which the surfaces / objects likely to be soiled with blood / body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) (associated with AIDS).**

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS) OF SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS.**

**PERSONAL PROTECTION:** Disposable protective gloves, gowns, face masks, or eye coverings as appropriate should be worn during all cleaning of body fluids, blood, and during decontamination procedures.

**CLEANING PROCEDURES:** Blood / body fluids must be thoroughly cleaned from surfaces / objects before application of disinfectant.

**Contact Time:** HIV-1 (AIDS virus) is inactivated after a contact time of 5 minutes at 72°F (22°C) (room temperature). Use a 10-minute contact time for decontamination against all other viruses, fungi, and bacteria listed.

**Disposal of Infectious Materials:** Blood / body fluids should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

**DIRECTIONS FOR FOOD PROCESSING ESTABLISHMENTS:** For use on non-food contact surfaces such as floors, walls, tables, empty garbage bins and cans. When used in food processing establishments, cover or remove all food and packaging materials, remove all gross soils, saturate all surfaces with the spray product, scrupulously clean, rinse, and scald (122°F, 50°C) or steam, and thoroughly rinse all wetted and cleaned surfaces with potable water.

**TOILET BOWL AND URINAL DISINFECTANT / CLEANER DIRECTIONS:** Empty toilet bowl of urine. Remove gross film before disinfection. Thoroughly clean exposed surfaces with soap or detergent. Shake can. Apply a thin coat of foam, making sure to cover entire surface to be disinfected. Brush or scrub thoroughly, including under the rim, allow foam to remain for at least 10 minutes, then flush.

**DISINFECTION DIRECTIONS FOR KENNELS AND OTHER AREAS THAT HOUSE ANIMALS:** For cleaning and disinfecting the following hard nonporous surfaces: equipment used for animal feed or water; utensils, instruments, cages, kennels, stables, etc. Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all food, droppings and manure from floors, walls, and roof of facilities occupied or traversed by animals. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with a thin coat of foam for a period of 10 minutes. Saturate all windows, ropes, and other types of equipment not used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure with a thin coat of foam for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

**STORAGE AND DISPOSAL:**

**Pesticide Storage:** Store in areas inaccessible to children. Do not reuse empty container.

**Container Disposal:** Before disposing of this product, empty the can by the product according to the label. If the recycling is not available, replace cap and discard container in trash. Do not incinerate or puncture.

**SYSTEM**

**FOAMY DISINFECTANT CLEANER**

One-step Disinfector, Cleaner, and Deodorant

**BACTERIAL, FUNGICIDAL, MILDEW/SATURATIONAL VIRUCIDAL**

A ready-to-use, multi-purpose formula effective in the presence of a moderate amount of soil (5% organic serum) against Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella cheddar, Escherichia coli, Salmonella typhi, Salmonella typhimurium,

**ACTIVE INGREDIENTS:**

- Bodywash (C8, 10%)
- CHX (C14, 060%)
- C2H5OH (C12, 30%)
- C2H5OH (C12, 50%)
- C2H5OH (C12, 70%)
- C2H5OH (C12, 90%)

**DIMETHYL BISULFATE**

**TOTAL:** 99.95%

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

Harmful if absorbed through the skin or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing vapor or spray. Wash thoroughly with soap and water after handling.

**PHYSICAL AND CHEMICAL HAZARDS**

Contents under pressure. Do not use or store near heat or a flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause burning.

**FIRST AID**

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration promptly. Be sure to put on a face mask or respirator before you enter the contaminated area.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling. Wear a disposable protective coverall or face mask and gloves.
