DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply Sani-Cide 94 with a cloth, mop, or coarse mechanical spray device until surface is thoroughly wetted. Treated surfaces must remain wet for 10 minutes. Allow surfaces to air dry. Thorough solution should be prepared daily or when the solution becomes visibly dirty. Apply all surfaces that come in contact with food such as countertops, appliances, tables and countertops with soap and detergent, and rinse with cold water before reuse. Do not use on utensils, glassware and dishes as a disinfectant.

DISINFECTION IN HOSPITALS, NURSING HOMES AND OTHER HEALTH CARE INSTITUTIONS

For disinfecting floors, walls, countertops, bathing areas, lavatories, toilets, sinks, urinals, pipes, and other hard nonporous surfaces. Add 4.5 oz. Sani-Cide 94 to 4 gallons water. Apply to previously cleaned hard surface with mop or cloth. At this use level, Sani-Cide 94 is effective against Pseudomonas aeruginosa.

This product is not to be used as a terminal or intermediate level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier of otherwise healthy intact mucous membranes or other epithelial surfaces of the body. This product may be used to clean medical devices prior to disinfection or high level disinfection.

DISINFECTION IN INSTITUTIONS, (i.e., Educational, Parole, Military, Industry, and Schools)

For disinfecting floors, walls, bathrooms, countertops, bathtubs, showers, and other hard nonporous surfaces. Add 3.2 oz. of Sani-Cide 94 to 5.5 gallons of water. Apply to previously cleaned hard surface with mop or cloth. At 1 gallon water usage, Sani-Cide 94 is effective against Staphylococcus aureus and Salmonella Enteritidis.

DISINFECTION OF POULTRY EQUIPMENT, ANIMAL QUARANTINE, FARMS AND KEENS

Poiltry brooders, watering tanks, feeding equipment and other animal quarters such as stalls and kennels and pens in animal houses shall be disinfected after thorough cleaning by applying a solution of 4.5 oz. Sani-Cide 94 and 4 gallons of water to a hard surface with a mop, cloth or brush. Small utensils should be soaked in the solution.
