STORAGE AND DISPOSAL:
Protect from heat and freezing. Store in original container. Refill only with this product. Triple rinse and offer empty container for recycling. If recycling is not available, discard container in trash.

PRECAUTIONARY STATEMENTS:
KEEP OUT OF REACH OF CHILDREN
CAUTION: May cause eye and skin irritation. Wear eye protection and gloves. If contact with eyes occurs, immediately flush with water. Seek medical attention if symptoms persist. Not for Aquatic Use.

DIRECTIONS FOR USE
SHAKE WELL BEFORE EACH USE. To Spray: Attach container to standard garden hose. Break tab and turn to “ON” position. Use garden hose as normal. For Best Results: Hold container upright. Do not aim towards ground. Spray directly on lawn, turf or soil until thoroughly wet. Lightly water area for 30 minutes to work treatment into soil. Repellex® Mole & Gopher begins to repel pests immediately. Effects typically last 4-6 weeks. If damage persists, reapply treatment after 7 days and then every 4-6 weeks as needed. To Protect During Winter: Apply treatment in late Fall before ground freezes. Moles and other burrowing pests remain active all year round. Winter damage may not be visible when ground is covered with snow.

Note: Pest activity may increase during the first 7 days of treatment as animals leave area. This indicates that the treatment is working! Not intended for use on food or feed crops.
