PondCare ALGAEFIX effectively controls these types of algae:
- Green or Green water algae (Chlorella)
- String or Hair algae (Cladophora)
- Blanketweed (Oedogonium)

in ornamental ponds & fountains

Will not harm aquatic pond plants, koi or goldfish

ACTIVE INGREDIENT:
Poly[oxyethylene (dimethyliminio)ethylene(dimethyliminio)ethylene dichloride]: 4.50%
OTHER INGREDIENTS: 95.50%

KEEP OUT OF THE REACH OF CHILDREN
CAUTION
See back panel for precautionary and first aid statements.

PRECAUTIONARY STATEMENT
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION: Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. NOTE: This product contains a chemical known to the state of California to cause cancer.

FIRST AID:
IF ON SKIN, thoroughly wash with soap and water and remove contaminated clothing. IF IN EYES, hold eye open and gently flush with water for 15 minutes. IF SWALLOWED, call a Poison Control Center or Doctor immediately for treatment advice.

STORAGE AND DISPOSAL:
Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Rinse thoroughly before disposing of empty container. Do not contaminate water or feed by storage or disposal.

Directions For Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For synthetically lined pond and fountain use only, where all water is contained without any outflow.

Warm weather caution: Before using PondCare ALGAEFIX, make certain that the pond has vigorous aeration, i.e., a fountain, waterfall, or aeration device to avoid fish loss due to low oxygen levels. When algae is controlled and removed by the filter or settles to the bottom of the pond, the oxygen level may drop to harmful levels if adequate aeration is not provided. Therefore, when using PondCare ALGAEFIX during warm weather and high water temperatures, vigorous 24 hour aeration is required. Do not shut off pond pumps and aeration devices at night.

Add 1 teaspoon (5 ml) for each 50 U.S. gallons (190 L) / 1/4 cup (60 ml) for each 600 gallons (2,275 L) of pond or fountain water. Thoroughly mix PondCare ALGAEFIX into pond water by adding near the pump outflow, waterfall, or aeration device. PondCare ALGAEFIX can be mixed in a bucket of pond water and dispersed evenly around the pond. Repeat dose every three days until algae is controlled. Be prepared to siphon out dead filamentous algae. Once algal growth is under control, add one dose per week. Weekly doses of PondCare ALGAEFIX will control algal growth and reduce pond maintenance.

CAUTION: Do not use PondCare ALGAEFIX with freshwater crustaceans, including: shrimp, crabs and lobsters.
