For lawn renovation/replacement:

Vines treatment:
If vines are growing up poles, fences or tree trunks with mature bark, cut vines to a height of 3 to 4 ft and spray vines ... its regrowth. If spraying regrowth, shield shrubs and tree trunks from spray drift with a sheet of cardboard or plastic.

To prevent regrowth from stumps, apply product when vegetation is actively growing and immediately after being cut down.

To control brush:

Applicator General Weed
Tough Weed Control
Lawn Renovation
Standard
Use 4 oz. (8 Tbs)
Mix 2 oz. (4 Tbs)
Mix 2 oz. (4 Tbs)
Mix 4 tsp. of product in 24 oz. of water
Use for spot treatments
Use for spot treatments
Use for spot treatments

Toxicity to wildlife:

This product is formulated for “spot” treatment of individual weeds and grasses or for treatment of large areas as instructed on this label (see specific site areas below). Apply with a plastic, aluminum or stainless steel tank-type sprayer. Use the product near fences, in paths, patios, sidewalks, curbs and driveways, around ornamental trees, shrubs, flower beds and plantings, around buildings and paths. Control weeds in brick and gravel patios, driveways, sidewalks, and patios. Always read and follow label directions. Do not apply to or store in galvanized or unlined steel spray tank, or through any irrigation system or sprinkling can. Use a tank-type sprayer with a coarse spray nozzle for spot treatments. Use a dial type sprayer or other appropriate sprayer to treat large areas such as for lawn and garden plantings. For best results, apply when weeds are small and before they set seed. Always read and follow label directions. Do not use near drinking water supplies. Do not apply to or store near food crops or food plants. Do not apply to any type of garden or ornamental plants after they are blooming. Do not apply to areas intended for use by children or pets until they have dried. Do not apply if there is a possibility of drift to nearby places. Do not apply if there is a possibility of drift to nearby places.

Precautionary statements:

Hazardous to aquatic life - Avoid contact with waterways, streams, lakes, ponds, and other bodies of water. Use for spot treatments only. Control weeds before they set seed. Do not apply to or store in galvanized or unlined steel spray tank, or through any irrigation system or sprinkling can. Use a tank-type sprayer with a coarse spray nozzle for spot treatments. Use a dial type sprayer or other appropriate sprayer to treat large areas such as for lawn and garden plantings. For best results, apply when weeds are small and before they set seed. Always read and follow label directions. Do not use near drinking water supplies. Do not apply to or store near food crops or food plants. Do not apply to any type of garden or ornamental plants after they are blooming. Do not apply to areas intended for use by children or pets until they have dried. Do not apply if there is a possibility of drift to nearby places. Do not apply if there is a possibility of drift to nearby places.

First aid:

If IN EYES:

IF ON SKIN OR CLOTHING:

Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center for treatment advice.

If INHALED:

IF SWALLOWED:

See back panel for additional precautionary statements

How to use:

This product is formulated for “spot” treatment of individual weeds and grasses or for treatment of large areas as instructed on this label (see specific site areas below).
