SPECIAL LOCAL NEED SUPPLEMENTAL LABELING
FOR DISTRIBUTION AND USE ONLY ON HOPS IN THE STATE OF OREGON

This label is valid until December 31, 2014 or until otherwise amended, withdrawn, cancelled, or suspended.

ACTIVE INGREDIENT: % By Weight
Iron phosphate ........................................................................................................................................ 1.0 %
Inert Ingredients .................................................................................................................................... 99.0 %

TOTAL 100.0 %

NET WEIGHT 50 LBS

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals: Caution. Causes moderate eye irritation. Avoid
contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating,
drinking, chewing gum, using tobacco or using the toilet.

Environmental Hazards: For terrestrial uses. Do not apply directly to water, or to areas where
surface water is present or to intertidal areas below the mean high water mark. Do not contaminate
water when disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

This label and the federal label for this product must be in the possession of the user at
the time of pesticide application.

Follow all application directions, restrictions, and precautions on this Supplemental
label and the main EPA-registered label. It is a violation of federal law to use this
product in a manner inconsistent with its labeling.

Do not apply this product in a manner that will contact workers or other persons, either directly or
through drift. Only protected workers may be in the area during application. For any requirements
specific to your State or Tribe, consult the State or Tribal agency representative responsible for
pesticide regulation.
GENERAL INFORMATION

NEU1165M Slug and Snail Bait is a unique blend of an iron phosphate active ingredient, originating from soil, with slug and snail bait additives. It is used as an ingredient in fertilizers. The bait which is not ingested by snails and slugs will degrade and become a part of the soil.

The bait is ingested by slugs and snails when they travel from their hiding places to plants. Ingestion, even in small amounts, will cause them to cease feeding. This physiological effect of the bait gives immediate protection to the plants even though the slugs and snails may remain in the area. After eating the bait, the slugs and snails cease feeding, become less mobile and begin to die within three to six days. Dead slugs and snails may not be visible as they often crawl away to secluded places to die. Plant protection will be observed in the decrease in plant damage. NEU1165M is effective against a wide variety of slugs and snails.

APPLICATION DIRECTIONS

<table>
<thead>
<tr>
<th>CROP</th>
<th>PEST</th>
<th>RATE OF APPLICATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hops</td>
<td>Slugs (Gray garden slug, brown banded slug, and others)</td>
<td>20-44 lbs. per acre (0.5-1 lbs. per 1,000 sq. ft.)</td>
</tr>
</tbody>
</table>

**HOW AND WHERE TO APPLY:** NEU1165M Slug and Snail Bait granules should be scattered on the soil around the base of the hop plants to be protected. Scatter granules by hand or with a granular spreader. Use 20 to 44 lbs. per acre (0.5 to 1 lbs per 1,000 square feet). Apply the higher rates if the infestation is severe or if the area is heavily watered or after long periods of heavy rain. Reapply as the bait is consumed or at least every two weeks. Do not place in piles. If the ground is dry, wet it before applying bait. The soil should be moist but with little or no standing water.

**WHEN TO APPLY:** Evening is the best time to apply the bait, as slugs travel and feed mostly by night or early morning.
WARRANTY: Seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with directions under normal use conditions. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. Buyer assumes all risk of any such use. Seller makes no other warranties, either expressed or implied.

NOTE:
- This package is sold by weight. Contents may have settled during shipment.
- The highly compressed pellets are easy to use, clean to handle and economical.
- Patented technology. Patented snail and slug killer.
- Easy-to-use granular formulation.
- Treats 1.15 acres at the maximum rate.
- Remains effective after rain or sprinkling.
- Proven snail and slug kill control.
- Convenient. Easy-to-use. Requires no mixing, spraying, or special applicators.
- Satisfaction guaranteed.
