For use in flax, rapeseed, safflower and sesame

EPA Reg. No. 7969-186

Active Ingredient*: Pyraclostrobin: (carbamic acid, [2-[[1-(4-chlorophenyl)-1H-pyrazol-3-yl]oxy]methyl]phenyl)methoxy-, methyl ester) ........................................ 23.6%
Other Ingredients**: ........................................................................................................... 76.4%
Total: ................................................................................................................................. 100.0%

* Equivalent to 2.09 pounds of pyraclostrobin per gallon.
** Contains petroleum distillates.

Refer to the Headline® fungicide main label, EPA Reg. No. 7969-186, for complete directions for use and all applicable restrictions and precautions. This supplemental label and the full Headline container label (EPA Reg. No. 7969-186) must be in the possession of the user at the time of pesticide application.

Directions For Use
It is a violation of federal law to use this product in a manner inconsistent with its labeling. DO NOT apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

General Information
Headline provides optimum disease control when applied in a regularly scheduled protective fungicide program and used in a spray program that rotates fungicides with different modes of action. Refer to the Headline main label for general resistance management information and to the Crop-specific Use Directions and restrictions found in this label.

Application Information
Apply Headline according to the rate, timing and resistance management instructions in the Crop-specific Use Directions table in this label.

Headline may be applied by ground sprayer, aerial equipment or through sprinkler irrigation systems. Refer to the Headline main label for specific instructions on these methods.

Restrictions and Limitations
Headline is not for use in greenhouse or transplant production systems.

DO NOT enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours.

No aerial application in New York State except as permitted under FIFRA Section 24(c), Special Local Need Registration.

**Application Directions:** For optimal disease control, begin applications of Headline prior to disease development and continue on a 7- to 14-day interval if conditions are conducive for disease development.

**Rapeseed:** For control of blackleg, apply Headline at 2- to 4-leaf stage. For optimal control of blackspot, apply Headline at early pod development. A second application 7 to 10 days later may be made if disease persists or if weather conditions are favorable for disease development.

**Flax:** Apply Headline at mid-flowering (7 to 10 days after flower initiation). Make a second application 7 to 10 days later if disease persists or if weather conditions are favorable for disease development.

**Headline** may be used with adjuvants.

No livestock feeding restrictions.

Refer to the Headline main label, EPA Reg. No. 7969-186, for complete Directions For Use in sunflower.

**Resistance Management:** To limit the potential for development of resistance, DO NOT apply more than 0.39 lb pyraclostrobin (= 24 fl ozs Headline) per acre per season. DO NOT make more than two (2) applications of Headline before alternating to a non-Group 11 fungicide with a different mode of action.
Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

To the extent consistent with applicable law, BASF makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty.

To the extent consistent with applicable law, Buyer's exclusive remedy and BASF's exclusive liability, whether in contract, tort, negligence, strict liability, or otherwise, shall be limited to repayment of the purchase price of the product.

To the extent consistent with applicable law, BASF and the Seller disclaim any liability for consequential, special or indirect damages resulting from the use or handling of this product.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
