FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for at least 15–20 minutes. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IN CASE OF EMERGENCY CALL: 1-800-654-6811

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

FOR INITIAL APPLICATION IN POOLS: Sanitize with bromine, chlorine or biguanide (PHMB), backwash and clean filter. Balance your pool water and adjust pH between 7.2–7.6. Add 2 pounds of this product per 1,000 gallons of pool water by broadcasting the product over the surface of the pool with the pump running. This initial treatment should be added in three doses with one third of the required amount being added with each application. Brush any undissolved product from the bottom of the pool. The pH of the water will rise as a normal reaction to the introduction of this product. One hour after each application, adjust the pH to 7.2–7.6 with pH decreaser according to label directions. Allow at least 8 hours between applications of this product. Do not add additional products until the pH is between 7.2–7.6. After every 5 pounds of this product, approximately 1 pound of pH decreaser will be required for each 1000-gal. Within 10 days, have a water analysis by your dealer to look for water balance and to determine if an adequate amount of this product has been added. For maintenance application and winterizing: This product is stable in pool water and is not degraded by sunlight. The primary loss of product is through normal filter backwashing and dilution from heavy rains. Therefore, for the initial application a monthly, regular and infrequent additional addition will be required unless a substantial amount of water is drained from the pool. Avoid contamination of food. Platinum-Plus levels should be treated once a month and maintained at a level of 30–50 ppm.

FOR MAINTENANCE APPLICATION AND WINTERIZING: This product is stable in pool water and is not degraded by sunlight. The primary loss of product is through normal filter backwashing and dilution from heavy rains. PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes serious eye irritation. May be harmful if swallowed.

• Open in a well ventilated area. Avoid breathing dust and fumes.
• Do not get in eyes, on skin or on clothing. Wear protective goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.
• Wash hands after handling.
• Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS:

Do not mix with other chemicals. Do not add through skimmer. Do not add to any dispensing device. Avoid contact with strong reducing agents.

ENVIRONMENTAL HAZARDS:

Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE & DISPOSAL:

Keep out of reach of children.
