**POOL breeze pool care system**

**Chlorinating Caplets**

- Sanitizes pool water
- No need to touch the chlorine

Active Ingredient:

Calcium Hypochlorite ..................68%
Other Ingredients ......................32%
Total ..................................100%
Minimum
Available Chlorine .................65%

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

Contamination or improper use may cause intense fire, explosion, or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not mix this product with a small amount of water. Only add directly to your pool. Do not add water to this product. Add only into water. Do not remove floater or other dispensing device from water for more than five minutes if it contains tablets or tablet residue. Highly corrosive. Causes skin and eye damage. May be fatal if swallowed.

Read all precautionary statements and first aid statements on back panel before use.

**Net Wt. 9.9 lbs.**
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE. WAY YOU SHOULD USE THIS PRODUCT: Pool Breeze® Chlorinating Caplets is a multi-purpose product that is ready and convenient to use. This product controls algae, kills bacteria and destroys organic contaminants. These 10.5 ounce caplets are designed to be used in the skimmer basket and dissolve slowly providing a steady source of available chlo-

rin for complete swimming enjoyment in your pool. For best results follow a weekly program with our Pool Breeze Chlorinating Caplets System. Take a pool water sample to your authorized Pool Breeze dealer regularly for a detailed water analysis.

HOW TO USE: DO NOT allow this product to contact other water treatment prod-

ucts. 1. Use only in pools with a skimmer and skimmer basket. 2. Skimmer basket should be free of all other water treatment products before adding recommended amount of this product. DO NOT remove plastic sleeve from the caplet. 3. Place caplet in the empty skimmer basket. 4. Remove plastic sleeve after caplet is dissolved. 5. Replace with a new caplet as needed. DO not mix with other products or dissolve before use.

WATER BALANCE: For optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.6, total alkalinity from 60 to 150 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all of the above ranges. Use Pool Breeze Pool Care Protectors to make adjustments. Follow label directions for each product.

DO NOT enter pool until the free available chlorine residual is 1-4 ppm for each of the below listed water treatment applications:

OPENING YOUR POOL: For best results, see the “WATER BALANCE” section above before treatment. Adjust and maintain pH in the 7.2 to 7.6 range. Follow “SHOCK TREATMENT” directions on this package. Test free available chlorine residual with a pool test kit. Repeat treatment as needed.

ROUTINE CHLORINATION: For best results, see “WATER BALANCE” section above before treatment. Throughout the pool season, adjust pH to 7.2-7.6.

FOR UNSTABILIZED POOLS: Begin by using 3 caplets of this product per 10,000 gallons of pool water.

FOR POOLS STABILIZED USING POOL BREEZE STABILIZER: Begin by using 1 caplet of this product per 10,000 gallons of pool water.

FOR UNSTABILIZED AND STABILIZED POOLS: After one day, use a suitable test kit to check free available chlorine residual. Increase or decrease the number of caplets to maintain a free available chlorine residual of 1-4 ppm. Follow “HOW TO USE” directions on this label.

SHOCK TREATMENT: SUPERCHLORINATION: For best results, see “WATER BALANCE” section above before treatment. Adjust pH to 7.2-7.6 with Pool Breeze pH adjusters. Follow label directions. Shock treat using Pool Breeze Floc-Gen Shock. Follow label directions on that product. DO NOT use shock for the initial available chlorine residual is 1 to 4 ppm. Shock treat your pool when opening, before weekly to prevent pool problems. In the summer months when the pool water temperature is 80° F or above, or if the chlorine residual falls rapidly after regular chlorination, superchlorination is recommended. Use a chlorine shock product and follow the directions on the product for superchlorination.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: RATIONALE: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating in nose and throat.

- Open in a well-ventilated area. Avoid breathing dust and fumes. DO NOT get in eyes, on skin, or on clothing. DO NOT handle with bare hands. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants. DO remove and wash contaminated clothing before reuse. Only use caps that are thoroughly clean and dry.

PHYSICAL AND CHEMICAL HAZARDS:

- If product is exposed to a small amount of water, it can react violently to produce heat and toxic gases and spares. DO NOT add water to this product. Add only into water. DO NOT allow to become wet or drip before use.

- Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases. Keep all foreign materials, including other water treatment products, away from this product. DO NOT apply this product to a heater or filter that has been used with any other product. DO NOT allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.

- Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases. Store in a cool, dry, well ventilated area. Strong oxidizing agent. This product can increase fire intensity, keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS:

- This product is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonhazardous container. DO NOT reuse or refill this container. Place empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. DO NOT contaminate food or feed by storage or disposal. DISPOSAL OF A CONTAMINATED ENVIRON-

MENTAL PRODUCT SEE “EMERGENCY HANDLING.”

EMERGENCY HANDLING: In case of contamination or decomposition — DO NOT remove container. Immediately remove container to an open and well-ventilated outdoor area by itself. Place with large amounts of water. Don’t allow the container or any remaining contaminated material in an approved burnoff area.

IMPORTANT: DO NOT USE THIS PRODUCT IN ANY FEDERAL, STATE, OR LOCAL DISPOSAL DEPOT IN WHICH ANY OTHER CHEMICAL PRODUCT HAS BEEN USED. DO NOT USE THIS PRODUCT WITH ANY OTHER CHLORINATING COMPOUND. DO NOT place in skimmer baskets that contain unsanitized material from previously used skimmers or tanks. DO NOT use this product in any chlorinating device which has previously contained other pool chemicals. FRESH WATERS: If you are using a well water system, add 3 caplets of this product per 10,000 gallons of water. FLOW THROUGH SYSTEMS: Use 3 caplets of this product per 10,000 gallons of water. After one day, use a suitable test kit to check free available chlorine residual. Increase or decrease the number of caplets to maintain a free available chlorine residual of 1-4 ppm. Follow “HOW TO USE” directions on this label.
