**EXCLUSIVE POOL CARE COLLECTION**

**SUPER SHOCK 'N SWIM**

Good for all pool surfaces

**DIRECTIONS FOR USE:**

- Shock treat your pool when opening, then weekly to maintain a constant chlorine residual.
- For deep cleaning, follow instructions for each product.
- Super chlorinate the pool by adding 1 pound of this product per 8,000 gallons of pool water.

**WATER BALANCE:**

- **WINTERIZING:**
  - Immediately after treatment thoroughly clean pool by brushing surface of algae growth, vacuum and cycle skimmer. Empty skimmer of all chemicals and/or debris.
  - Allow this product to contact other water treatment products, away from this product. • Do not mix this product with a small amount of water. • Do not add water to this product. Add only into water.
  - It can react violently to produce heat and toxic gases and Contamination may cause an explosion or the release of toxic gases. Do not use this method when an automatic chemical dispensing device (e.g. feeder) is in use.
- **SUPER CHLORINATION:**
  - Do not pre-mix this product with water. Only add directly to your pool. Broadcast the product evenly through filter. If necessary, repeat the treatment. Pool chlorine residual falls rapidly after regular use.

**PRODUCT SEE "EMERGENCY HANDLING".**

**FIRST AID:**

- **For best product performance,** allow pH to drop to 4 ppm.

**SAFETY INSTRUCTIONS:**

- Do not allow product to come in contact with other water treatment products. • Do not apply this product to pool water which has been used with any other product. If used in this manner, it will produce excessive chlorination and possible destruction of pool lining.
- Do not use the scoop for any other purpose.

**DISPOSAL OF A CONTAMINATED OR DECOMPOSING:**

- In case of contamination or decomposing, do not pour into public drainage systems, sewers, or on land. Do not incinerate. Dispose of in an approved landfill area.

**WARNING:**

Children can fall into bucket and drown. Keep children away from bucket with even a small amount of liquid.

**AVISO:**

Los Niños pueden caerse a este cubo y ahogarse.

**IN CASE OF EMERGENCY**

- Call a poison control center or doctor for treatment advice.

**EMERGENCY HANDLING:**

- Call a poison control center or doctor if you think you might have touched or inhaled the product. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give water if able to swallow.

- If swallowed: Rinse mouth, drink a full glass of water and seek medical attention.

- If in eyes: Rinse gently with water for 15-20 minutes. Remove contact lenses, if present, and continue rinsing.

- If on skin: Wash gently with soap and water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

- If on clothing: Take off contaminated clothing. Rinse with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**DANGER**

CONTAMINATION MAY CAUSE AN EXPLOSION OR THE RELEASE OF TOXIC GASES.

**KEEP OUT OF REACH OF CHILDREN**

**EMERGENCY HANDLING**

If product is exposed to small amounts of water, contact any foreign matter, including other water treatment products. Or the release of toxic gases.

**FIRST AID:**

**IF-swallowed:** Do not give anything by mouth. Do not induce vomiting. If the material is on the skin, wash the material off with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Do not give water to a person who is unconscious.

**IF ON SKIN OR CLOTHING:** Rinse off immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have person wash gently with water for 15-20 minutes. Remove contact lenses, if present, after first flushing eye with water for 15-20 minutes. Do not give water to a person who is unconscious.

**IF IN EYES:** Hold the eyelids open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after first flushing eye(s) with water for 15-20 minutes. If material gets into the eye(s), do not rub eye(s). Do not give water to a person who is unconscious.

**IF INHALED:** Get person outdoors to fresh air. Call a poison control center or doctor for treatment advice. Do not give water to a person who is unconscious.

**IF SKIN CONTACT:** Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Do not use the pool until the chlorine residual has been reduced to 1 ppm.

**IN CASE OF FIRE:** Extinguish fire with dry chemical, CO2, or foam-type extinguishers. Do not use water!

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**POISONOUS TO HUMANS**

This pesticide is toxic to burning material (like a lighted cigarette).

**HARMFUL IF ABSORBED THROUGH SKIN**

Irritating to nose and throat.

**IRRITATING TO EYES**

Irritating to nose and throat.

**IRRITATING TO SKIN**

Irritating to skin.

**EYE PROTECTION**

Rubber gloves. For additional protection of skin wear rubber gloves.

**VENTILATION**

Open in a well ventilated area. Avoid breathing dust and fumes.

**STORAGE & DISPOSAL**

Storing and disposal of equipment. For additives and cleaning of equipment. For additives and cleaning of equipment. For additives and cleaning of equipment. FOR ADDITIVES AND CLEANING OF EQUIPMENT.

**TREATMENT**

Have the product container or label with you when calling a doctor, hospital, or an ambulance, then give artificial respiration, preferably mouth to mouth. Do not give water to a person who is unconscious.

**DIRECTIONS FOR USE**

**POOL SHOCK TREATMENT:** For best product performance, shock treat your pool when opening, then weekly to help prevent pool problems. For additional shock treatments may be required to correct problems which are caused by: visible algae; high pH; total alkalinity; free chlorine; cyanuric acid; or the release of toxic gases.

**SUPER CHLORINATION:** Do not use the pool until the chlorine residual has been reduced to 1 ppm.

**SHOCK TREATMENT:** Do not add water to this product. Add only into water. If product is exposed to small amounts of water, contact any foreign matter, including other water treatment products. Or the release of toxic gases.

**METHOD OF APPLICATION:** Use only a clean, dry scoop to measure this product. Place the material into the system. For best product performance, shock treat your pool when opening, then weekly to help prevent pool problems. Additional shock treatments may be required to correct problems which are caused by: visible algae; high pH; total alkalinity; free chlorine; cyanuric acid; or the release of toxic gases.

**DOSAGE RATE:**

For best product performance, shock treat your pool when opening, then weekly to help prevent pool problems. Additional shock treatments may be required to correct problems which are caused by: visible algae; high pH; total alkalinity; free chlorine; cyanuric acid; or the release of toxic gases.
