**DANGER** KEEP OUT OF REACH OF CHILDREN

See back panel for Precautionary and First Aid statements.

Read all Precautionary Statements and First Aid statements before use.

Skin burns. May be fatal if inhaled or absorbed through skin. Harmful if released from water for more than five minutes if it contains a stick or stick residue.

Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can cause fire, explosion, and the release of toxic gases. Do not mix this product with a small amount of water.

**Availability Chlorine**........................90%

**Trichlor-s-Triazinetrione** ............99%

**ACTIVE INGREDIENT**

**HOW TO USE:**

Only add directly to your pool or spa. Do not remove floater or other floating dispenser designed for this product, or place this product in feeders, floaters, or skimmers. These convenient and easy to use Care Collection Cleaning Sticks Stabilized Chlorinator are formulated to dissolve slowly providing a steady source of available chlorine (up to one week) for complete swimming enjoyment in your pool.

Follow directions in "HOW TO USE" section.

**ALGAE CONTROL:**

As a preventative treatment, you should shock treat the pool with a poolife® shock product. Follow label directions.

Balance pool water, shock treat or super chlorinate with a poolife® shock product. Follow label directions.

**DIRECTIONS FOR USE:**

• Do not use this product in a floater or feeder that has been used for this product.

• Do not throw sticks in skimmer boxes. If placed in skimmer, run the pump a minimum of 10 minutes.

• Do not throw sticks on, in or into the filtering system. If these products are placed on, in or into the filtering system, remove and waste as hazardous waste.

• Do not eat, drink, or use tobacco during use or while in the pool area.

• Do not allow children to play in the pool when using this product.

• Do not allow this product to contact other water treatment products.

• Do not allow this product to contact any foreign matter, including other water treatment products.

• Do not allow this product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can cause fire, explosion, and the release of toxic gases. Do not mix this product with a small amount of water.

• Do not use this product in a floater or feeder that has been used for this product.

• Do not throw sticks in skimmer boxes. If placed in skimmer, run the pump a minimum of 10 minutes.

• Do not allow this product to contact other water treatment products.

**EMERGENCY HANDLING:**

In case of contamination or decomposion, see back panel. If placed in a pool, ask a pharmacist or veterinarian about the possible use of an activated charcoal enterosorbent. If an oxidizer logo is required, the “diamond” can break the print limit - split top & bottom. Try to locate away from Ears or On-Centers.

**PRECAUTIONARY STATEMENTS**

• Wear goggles and rubber gloves when handling this product. For additional protection of skin, wear long sleeves and long pants.

• Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

• Remove and wash contaminated clothing before reuse.

• Do not eat, drink, or use tobacco during use or while in the pool area.

• Do not allow children to play in the pool when using this product.

• Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely dry in its tightly closed container when not in use. Store in a cool, dry, dark place away from heat or flames. Do not contaminate food or water.

**FIRST AID:**

• Do not give anything by mouth to the person unless instructed to do so by a poison control center or doctor.

• Do not give anything by mouth to the person unless instructed to do so by a poison control center or doctor.
