FOR INDUSTRIAL USE ONLY – NOT FOR RESIDENTIAL USE

PRODUCT DESCRIPTION:
C- Flex 1-2-3 AF is a one-component antifouling paint formulated with a high performance, highly active copper oxide. This paint is designed for long-lasting antifouling protection for vessels in salt, brackish and fresh waters. The active ingredient is copper oxide, which is the most active antifouling pigment known to man. The high performance binder system is designed to improve film hardness and abrasion resistance. The paint is a self-stripping system which removes fowlings from the vessel’s hull during normal navigation operations, resulting in continuing antifouling protection. This feature can be very significant for vessels which are unable to go into a dry dock for extended periods of time.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING. Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants and hat. May be fatal if swallowed or inhaled. Do not breathe spray mist. While spraying paint or sanding or sandblasting boat surfaces, wear a mask or a respirator jointly approved by the Mining Enforcement and Safety Administration and the National Institute for Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

Statement of Hazard:
Inhalation. C- Flex 1-2-3 AF may be used on vessels in salt, brackish, and fresh waters. It is a very high performance, anti-fouling paint for worldwide service with extended antifouling activity of up to 12 months. C- Flex 1-2-3 AF can be used over suitable existing coatings. Airless spray is strongly recommended, if spray is chosen. A minimum of two coats is recommended. See surfae preparation recommendations and the suitability of specific products on individual vessels.

IF ON SKIN OR CLOTHING:
• Remove contaminated clothing. • Rinse skin immediately with plenty of water for 15 – 20 minutes. • Call a poison control center or doctor for further treatment advice.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for further treatment advice.

METHOD OF CLEANUP:
Ensure that all equipment is used in accordance with all applicable State, Federal, and Local laws. The use of an approved dust collection system is mandatory.

IF SWALLOWED
• Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.

FIRST AID
KEEP OUT OF REACH OF CHILDREN

APPLICATION METHOD AND LIMITATIONS:
This material is a toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of paint. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans and other waters unless in accordance with the requirements of the National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

ENVIRONMENTAL HAZARDS
This material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of paint. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans and other waters unless in accordance with the requirements of the National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

LEGAL STATUS
General Use:
Paint contains toxic ingredients. — WARNING: May cause copper poisoning, which can result in renal damage and death. Paint is toxic to aquatic life and is considered a potential contaminant of surface waters.

Chip and Dust:
Paint contains toxic ingredients. — WARNING: May cause copper poisoning, which can result in renal damage and death. Paint is toxic to aquatic life and is considered a potential contaminant of surface waters.

PRECAUTIONS
• Keep out of reach of children. • Keep away from food, feed, or food/water sources. • Store in a cool, dry place out of direct sunlight. • Paint is extremely flammable and should not be stored or used in the vicinity of open flames or other potential fire hazards. • Do not use or store in an environment where temperature exceeds 100°F (38°C).

CONSUMPTION REPORT
C FLEX 1-2-3 AF may be used on vessels in salt, brackish, and fresh waters. It is a very high performance, anti-fouling paint for worldwide service with extended antifouling activity of up to 12 months. C- Flex 1-2-3 AF can be used over suitable existing coatings. Airless spray is strongly recommended, if spray is chosen. A minimum of two coats is recommended. See surface preparation recommendations and the suitability of specific products on individual vessels.

APPROVALS:
This material is one-component coating. Always stir paint thoroughly with a power agitator before use. Equipment: Brush: use appropriate size China bristle brush. Roller: Use All Purpose Roller Cover 3/8” (9.5mm) pile smooth to medium. Pre-wash roller cover to remove loose fibers before use. Keep all equipment in good working condition. Store all equipment in a cool, dry place. Paint is flammable. Keep away from heat, sparks or open flames. Do not allow paint to come in contact with eyes, skin, or clothing. Do not inhale spray mist. When spraying, spray in an area with adequate ventilation. Keep equipment covered when not in use to prevent leakage. Shelf life is 12 months in this condition.

PROPERTIES:
• High performance antifouling paint for worldwide service with extended antifouling activity of up to 12 months. • C- Flex 1-2-3 AF can be used over suitable existing coatings. • Airless spray is strongly recommended, if spray is chosen. • A minimum of two coats is recommended. • See surface preparation recommendations and the suitability of specific products on individual vessels. • Environmental hazards: This material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of paint. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans and other waters unless in accordance with the requirements of the National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

CHEMICAL OR PHYSICAL HAZARDS
FLAMMABLE. Keep away from heat, sparks or open flames.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. PESTICIDE DESTRUCTION: Pesticide wastes are toxic. Open dumping is prohibited. Pesticide, spray mist and runoff that cannot be used or chemically reprocessed should be disposed of according to procedures approved by Federal, State, or local disposal authorities.

CONTAINER DISPOSAL: Nonflammable container. Do not reuse or refill this container. Prior to container disposal allow any remaining paint residue in the container to dry. Dispose of the container in accordance with Federal, State or local disposal regulations.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with the labeling. PRODUCT DESCRIPTION: C- Flex 1-2-3 AF is a one-component antifouling paint suitable for application to fiberglass, wood or metal vessels subject to biofouling, algae, biofilm and other marine fouling problems. It provides seasonal protection of vessels with moderate to heavy fouling. C- Flex 1-2-3 AF may be used on vessels in salt, brackish, and fresh waters. It is a very high performance, anti-fouling paint for worldwide service with extended antifouling activity of up to 12 months. C- Flex 1-2-3 AF can be used over suitable existing coatings. Airless spray is strongly recommended, if spray is chosen. A minimum of two coats is recommended. See surface preparation recommendations and the suitability of specific products on individual vessels.

APPLICATION METHOD:

APPLICATION INTERVAL:
Paint only clean, dry surfaces. Remove all dirt, grease, oil, soluble contaminants and any other substances which may act as adhesives for fouling organisms. Do not use a primer. A primer is recommended for wood or fiberglass before applying this product. For painted surfaces, the substrate must be high pressure washed to remove salt and fouling debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans and other waters unless in accordance with the requirements of the Regional Office of the EPA.

THINNING:
Prior to use, obtain, consult and follow the Material Safety Data Sheet for this product for added precautionary notices and the suitability of specific products on individual vessels. For airless spray, use Carboline Thinner #10. Spray equipment must be flushed with this solvent. Periodically flush-out spray equipment during the workday. Frequency of cleaning/flushing will depend on such factors as amount sprayed, temperature and elapsed time including breaks. Continuously monitor the condition of the equipment.

PESTICIDE DISPOSAL:
Mixture or rinsate that cannot be used or chemically reprocessed should be disposed of according to procedures approved by Federal, State, or local disposal authorities.

CONTAINER DISPOSAL:
Nonflammable container. Do not reuse or refill this container. Prior to container disposal allow any remaining paint residue in the container to dry. Dispose of the container in accordance with Federal, State or local disposal regulations.
