**Application Restrictions**

Do not apply this product in a way that will contact workers or other persons either directly or through drift. Only apply the product when and where needed and only in the manner indicated in this label, taking all necessary precautions to avoid contact with persons or animals. Do not apply the product when food or water is present. Do not use the product within 3 feet of air vents, air conditioner units, or windows. Keep sprays or mists from entering buildings or rooms where people are present.

**KEEP OUT OF REACH OF CHILDREN**

CAUTION: Avoid contact with skin or clothing. Harmful if swallowed. Prolonged or frequently repeated skin contact may cause irritation. Wear gloves, protective clothing, and eye protection when applying the product. Do not allow children to enter or play in treated areas until all aerosols, vapors, and/or mists have dispersed. Wash hands thoroughly with soap and water after handling the product or after applying the product.

**HAZARDS TO HUMANS & DOMESTIC ANIMALS**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not handle the product if you have any skin condition. Do not use the product in nurseries or rooms where infants, ill, or aged persons are present. Do not use in residential areas or in rooms where people are present.

**PRECAUTIONARY STATEMENTS**

**DIRECTIONS FOR USE**

This product kills flies, gnats, flying moths, and mosquitoes in food handling establishments, food processing establishments, restrooms, dining rooms, and restaurants. The Dispenser activates once every 15 minutes; after two hours of operation, enough insecticide is suspended in the air to maintain effective concentration over the entire area. Insecticide is released from the dispenser at a rate of 0.00046 lb. pyrethrin per 1000 cubic feet. When used in dairy barns or facilities: Close milk bulk tanks to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal. Store in a cool, dry, secure area in original container. Exposure to temperatures above 130° F may cause decomposition. Do not contaminate water, food, or feed by storage or disposal. Store in a cool, dry secure area in original container. Exposure to temperatures above 130° F may cause decomposition.
