SUPPLEMENTAL LABELING

DUPONT™ RESOLVE® Q HERBICIDE
FOR USE ON FIELD CORN
IN AREAS OF OREGON AND WASHINGTON

DUPONT™ RESOLVE® Q HERBICIDE
EPA Reg. No. 352-777
FOR USE ON FIELD CORN
REVISED ROTATIONAL CROP GUIDELINES
FOR CERTAIN AREAS OF OREGON AND WASHINGTON

DIRECTIONS FOR USE

DuPont™ RESOLVE® Q herbicide is a water soluble granule. RESOLVE® Q is a selective herbicide for burndown and residual control of certain annual grass and broadleaf weeds when applied preemergence or postemergence to field corn.

RESOLVE® ROTATIONAL CROP GUIDELINES - FIELD CORN

Field corn grown under sprinkler irrigation with a minimum of 18 inches of water per season. This rotation interval is for sand, loamy sand and sandy loam soils having not more than 1.5% organic matter where a minimum of 18 inches of sprinkler irrigation is used on the previous corn crop. Injury to the rotated crop may occur if less than 18 inches of irrigation is used on the previous field corn crop. For tank mixtures, follow the most restrictive rotational crop guideline.

The following revised rotational intervals should be observed when using RESOLVE® Q on field corn:

Rotation Crop | Interval (months)
--- | ---
Alfalfa | 4
Carrots | 10
Cucumber | 10
Grass, pasture, hay, seed | 4
Mint | 4
Onions | 10
Peas | 8

For Rotation to Alfalfa: RESOLVE® Q in field corn not to exceed 1.25 ounces per use season in Adams, Grant, Douglas and Lincoln counties of Washington, and RESOLVE® Q in field corn not to exceed 1.88 ounces per acre per use season in Benton, Franklin, Klickitat, Walla Walla and Yakima counties in Washington and Morrow and Umatilla counties in Oregon.

For Rotation to Onions and Carrots: RESOLVE® Q in field corn not to exceed 1.88 ounces per acre per use season in Adams, Grant, Douglas and Lincoln counties of Washington, and RESOLVE® Q in field corn not to exceed 2.5 ounces per acre per season in Benton, Franklin, Klickitat, Walla Walla and Yakima counties in Washington and Morrow and Umatilla counties in Oregon.

For Rotation to Grass Crops Grown for Seed, Hay or Pasture: RESOLVE® Q in field corn not to exceed 1.88 ounces per acre per use season in Adams, Grant, Douglas and Lincoln counties of Washington, and RESOLVE® Q in field corn not to exceed 2.5 ounces per acre per use season in Benton, Franklin, Klickitat, Walla Walla and Yakima counties in Washington and Morrow and Umatilla counties in Oregon.

For Rotation to Peas and Mints: RESOLVE® Q in field corn not to exceed 1.88 ounces per acre per use season in all areas.

PRECAUTION

RESOLVE® Q should not be used in a tankmix or sequential application program with other soil residual ALS-inhibiting herbicides in field corn as the combined effects of these herbicides on the planting of subsequent crops have not been thoroughly investigated and injury to the following rotation crop may occur.

IMPORTANT

BEFORE USING RESOLVE® Q, READ AND FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA-REGISTERED LABEL.

This bulletin contains new or supplemental instructions for use of this product which do not appear on the EPA-registered package label. Follow the instructions carefully.

This labeling must be in the possession of the user at the time of pesticide application.

Read the Limitation of Warranty and Liability on the Section 3 Federal product label before buying or using this product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Limitation of Warranty and Liability on the Section 3 Federal product label.
