Brominating Tablets for Spas

Active Ingredient:
Bromochloro-5,5-dimethylhydantoin . . . . . 98%
Other Ingredients: . . . . . . . . . . . . . . . . . . . 2%
TOTAL: . . . . . . . . . . . . . . . . . . . . . . . . . . . . 100%
Provides: 64.9% Available Bromine
29% Available Chlorine

EPA Reg. No. 8622-41-45729
EPA Est. No. 69470-WV-2

NET CONTENTS: 4 LBS

Front label changes:
1. Removed Performance Guaranteed from logo
2. Removed waves from under logo
3. Made text Myriad Pro or Myriad Pro Bold
4. Made Keep out of reach of children 10pt as per EPA regulations
5. Made Danger 14pt as per EPA regulations
6. See back panels for additional precautionary statements and first aid 8pt
7. Added “Provides” in the ingredients list as it was on the master label

Front label changes - April:
1. Added colon (:) after “Active Ingredient” and deleted the “s” at the end of “Ingredients”
2. Deleted colon at the end of chemical name in Ingredient Statement.
3. Deleted “.0” from Available Chlorine percentage.
**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**

CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS. EYE CONTACT MAY CAUSE LOSS OF VISION. HARMFUL IF INHALED. IRRITATING TO NOSE AND THROAT.

**FIRST AID**

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

If INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If SWALLOWED: Call poison control center or doctor immediately for further treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**YOU MAY ALSO CONTACT** 1-800-420-9236 FOR EMERGENCY MEDICAL TREATMENT INFORMATION.

NOTE TO PHYSICIAN: Probable maximal damage may contaminate the use of gastric lavage.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label and use strictly in accordance with precautionary statements and directions.

Keep pool between 7.2 and 7.6 and never allow it to fall below 7.0. The treatment necessary for your pool will change considerably depending upon these factors that burden the disinfection system. Some of the factors that will vary the required treatment are water temperature, bather load, exposure to windblown debris, thunder, rain storms, and length of filtration cycle. Users must wear chemical-resistant gloves while placing the tablet in the swimming pool/spas.

**SPAS & HOT TUBS**: Before initially using this product in your spa or hot tub you will need to add 1/2 oz. of sodium bromide for each 100 gallons of water. The same treatment must be followed each time you drain and refill your spa or hot tub with fresh water. Introduce 3 tablets per 100 gallons of spa water with the use of a floating tablet feeder or automatic brominator installed on the spa equipment. Adjust tablet feeder or brominator to obtain an active bromine residual of at least 2 ppm. Maintain spa by adding 3 tablets per 100 gallons every 5-7 days or as needed to maintain an active bromine residual of 2 ppm at all times. Spa water has a tendency to foam and cloud; this is directly proportional to the amount of spa use. Cloudiness is due to the accumulation of body oils, fats and contaminants too small for the filtration equipment to remove, and is linked to rapid escalation of total dissolved solids in the water. To a great extent, defoamers, clarifiers, as well as shock treatments, demineralizers, or sequestering agents can be used to clear the water. When water clarification cannot be achieved, drain, clean, and refill the spa.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal.

**PESTICIDE STORAGE**

Keep this product dry in the tightly closed, original container when not in use. Store in dark, cool, below 86°F (30°C), dry, well-ventilated area. Keep product away from energy sources, combustible organic materials, oxidizers, strong bases, and moisture.

**PESTICIDE DISPOSAL**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseout is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING**: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available, or puncture and dispose of in a sanitary landfill.

**SPILLS**

When handling or dealing with spills, use goggles with side shields, or face shield, protective clothing, including chemical-resistant boots and gloves, a dust respirator if dusting occurs. Sweep up spill and dispose of as described for pesticide disposal. If container contents are contaminated or decomposing, do not reseal container. Isolate unsealed container in the open or in a well-ventilated area, flood with large volumes of water if necessary.

**IN CASE OF FIRE**: Do not use ammonium phosphate extinguisher near water and this product. Hazardous reactions may occur.

**VARIANTS**: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use, but to the extent consistent with applicable law, neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.

**Pool Spa and Hot Tub Gallon Calculator**

(All dimensions in feet)

**Length x Width x Average Depth x 7.5 = Gallons**

Front label changes - April REV1
1. Took percentage in front of Available chemicals.
2. Placed a "s" at the end of "Hot Tub"

Back label changes - April REV2
1. Added "and Hot Tub" to Gallon Calculator
2. Moved "in Case of Fire" down to separate it like the master label
3. Increased font size for "Storage and Disposal" heading.
4. Added "and Hot Tub" to Hot Tub Gallon Calculator
5. Moved up Gallon Calculator and placed "Each tablet underneath.

**Other labels**

1. Added "and Hot Tub" to Hot Tub Gallon Calculator
2. Moved up Gallon Calculator and placed "Each tablet underneath.
