USE PROTEX® DISINFECTANT SPRAY

For Hospitals and Institutional Use
Effective in the presence of
5% serum contamination

• Kills SARS-CoV-2 virus, the cause of COVID-19
• Staphylocidal• Pseudomonacidal• Bactericidal
• Salmonellacidal• Fungicidal• Virucidal

Active Ingredients:
Octyl decyl dimethyl ammonium chloride .0033%
Diethyl dimethyl ammonium chloride .0015%
Alkyldimethylbenzyl ammonium chloride .034%
Other ingredients .9916%
Total 100.00%

Pre-clean visibly soiled objects. Place objects into unit and operate for a minimum of 10 minutes, according to the manufacturer’s directions. Remove objects and wash with sterile water (climbing water for inpatients) or allow to air dry. Use fresh product for each use.

KILLS HIV-1 and HBV and HCV on PRE-CLEANED INACTIVATED SURFACES FOR DISINFECTION AGAINST HIV-1 or HBV or HCV.

In health care settings or other settings in which there is an expected likelihood of soiling of inanimate objects, use Protex Disinfectant Spray to disinfect hard non-porous surfaces and inanimate objects before application of Protex Disinfectant Spray.

For hospitals, use Protex Disinfectant Spray where a one-step disinfectant cleaner is effective against bloodborne pathogens and viruses. Protex is appropriate for use in areas of high-touch frequented by patients, such as doors, knobs, handrails, etc.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in compliance with the Federal Water Pollution Control Act (and any state and local legislation). Protex is not to be used in products or processes that contain food or feed ingredients, or that come into contact with food ingredients or food processing equipment. 

One-Step Infecticidal®
For Hospitals and Institutional Use
Effective in the presence of HIV-1, HBV, and HCV.

For use on hard, non-porous surfaces of
• walls • counters • ultrasonic baths
• Other hard non-porous surfaces made of: • laminated surfaces • metal • plastic • stainless steel • vinyl and plastic upholstery • finished woodwork.

Do not contaminate water, food or feed by storage or disposal.

Container Disposal:
Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). For recycling or reconditioning or purchase and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

For information contact Bethany Laboratories, Inc. 260 5th Ave. Fairfield, NJ 07004 parkerlabs.com

• On hard, non-porous, non-food surfaces.
• When used according to the disinfection directions.

Pesticide Storage:
Store in original container in areas inaccessible to children.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage:
Store in original container in areas inaccessible to children.

Contaminated Surface Disposal:
Protex Disinfectant Spray is an effective one-step fungicide against Trichophyton mentagrophytes when used on hard non-porous surfaces in areas such as locker rooms, dressing rooms, showers and exercise facilities. Allow surface to remain visibly wet for 10 minutes.

Mold and Mildew:
Protex Disinfectant Spray is an effective one-step fungicide against Trichophyton mentagrophytes when used on hard non-porous surfaces in areas such as locker rooms, dressing rooms, showers and exercise facilities. Allow surface to remain visibly wet for 10 minutes.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Caution:
Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

FIRST AID
If accidental ingestion or eye contact, seek medical attention immediately. Wash contact area with soap and water for 15-20 minutes. Remove contact lenses (if present), after first 5 minutes, then continue rinsing the eyes.

1 On hard, non-porous, non-food surfaces
2 When used according to the disinfection directions.
3 Staphylococcus aureus
4 Pseudomonas aeruginosa
5 Salmonella enterica

Protex® disinfectant spray
One-Step Disinfectant5
For Hospitals and Institutional Use
Effective in the presence of 5% serum contamination
- Kills SARS-CoV-21 virus, the cause of COVID-19
- Staphylocidal7
- Pseudomonacidal8
- Bactericidal
- Salmonellacidal9
- Fungicidal
- Virucidal*
USE PROTEX® DISINFECTANT SPRAY
- As a disinfectant on hard, non-porous surfaces
- For disinfecting of ultrasound transducers, probes, mammography compressor plates and other hard non-porous surfaces
- To clean and disinfect tables, chairs and countertops
- On non-porous athletic mats, wrestling mats, gymnastic mats, exercise equipment and training tables.

**PROTEX® DISINFECTANT SPRAY**

Is a one-step Hospital Use disinfectant* cleaner that is effective against a broad spectrum of bacteria, is virucidal** including HIV-1, the AIDS Virus and Hepatitis B Virus and Hepatitis C Virus, and fungicidal when used as directed.

**USE IN:**
- Hospitals
- Medical Related Facilities
- Athletic Facilities
- Exercise Facilities
- Other hard non-porous surfaces made of:
  - stainless steel
  - plastic
  - vinyl and plastic upholstery

**Protex Disinfectant Spray** is a one-step hospital use disinfectant*, Bactericidal tested according to the AOAC Use-Dilution Test Method, Fungicidal according to the AOAC Fungicidal Test and Virucidal** tested according to the virucidal qualification modified in the presence of 5% organic serum against:

**Bacteria:** Acinetobacter baumannii • Corynebacterium ammoniagenes • Burkholderia cepacia • Campylobacter jejuni • Enterobacter aerogenes • Enterobacter cloacae
- NDM-1 • Enterococcus faecalis-Vancmycin resistant-VRE
- ESBL Escherichia coli • Escherichia coli, New Delhi Metallo-beta Lactamase (NDM-1) • Klebsiella pneumoniae • Klebsiella pneumoniae – NDM-1 positive
- Legionella pneumophila • Pseudomonas aeruginosa • Salmonella enterica
- Salmonella typhi • Serratia marcescens • Shigella dysenteriae • Staphylococcus aureus-Community Associated Methicillin Resistant [CA-MRSA][NRS384][USA300] • Staphylococcus aureus-Methicillin Resistant-MRSA
- Staphylococcus aureus-Multi Drug Resistant • Staphylococcus aureus-Vancmycin Intermediate Resistant-VISA
- Streptococcus pyogenes • Vibrio cholerae

**Viruses:** Hepatitis B Virus (HBV) • Hepatitis C Virus (HCV) • Hepatitis B Virus (HIV-1) (associated with AIDS) • Human Coronavirus • Influenza Virus Type A / B • Norwalk Virus • Respiratory Syncytial Virus • Rotavirus • SARS-Related Coronavirus 2 (SARS-CoV-2) (cause of Covid-19) • *Vaccinia Virus Type 1 • *Herpes Simplex Virus Type 1 • *Herpes Simplex Virus Type 2 • *HIV-1 (AIDS Virus) • *Human Hepatitis B Virus (HBV) • *Hepatitis C Virus (HCV) • *Herpes Simplex Virus Type 2 • *HIV-1 (AIDS Virus) • *Human Hepatitis B Virus (HBV) • *Hepatitis C Virus (HCV).

**Fungi:** Trichophyton mentagrophytes • Aspergillus niger • Aspergillus fumigatus

**DIRECTIONS FOR USE**

To Refill this bottle: REMOVE pump from empty bottle. POUR: Unscrew cap on refill and pour directly into empty bottle. USE: Replace pump and use as you normally would.

**DISINFECTION**/**VIRUCIDAL**/**MOLD & MILDEW CONTROL**

**DIRECTIONS:** Spray 6-8 inches from hard, non-porous surface, until surfaces are thoroughly wet. Do not breathe spray. Treated surfaces must remain visibly wet for 10 minutes. For SARS-CoV-2, treated surfaces must remain visibly wet for 3 minutes. For Influenza Virus Type A and Human Coronavirus, treated surfaces must remain visibly wet for 1 minute. Wipe dry with a clean cloth, sponge, or mop or allow to air dry. For visibly soiled areas, a preliminary cleaning is required. Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Do not use on utensils, glassware and dishes.

**For fungicidal activity:** Protex Disinfectant Spray is an effective one-step fungicide against Trichophyton mentagrophytes when used on hard non-porous surfaces in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities. Allow surface to remain visibly wet for 10 minutes.

**For mold and mildew:** Repeat treatment every 7 days or more often if new growth appears.

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

**ULTRASONIC BATH DISINFECTANT** / **VIRUCIDAL DIRECTIONS:** Use Protex Disinfectant Spray to disinfect hard non-porous non-ritical objects compatible with Ultrasonic cleaning units. Pour Protex Disinfectant Spray directly into bath chamber. Pre-clean visibly soiled objects. Place objects into unit and operate for a minimum of 10 minutes, according to the manufacturer's directions. Remove objects and wash with sterile water (sterile water for injection) or allow to air dry. Use fresh product for each use.

**KILLS HIV-1 AND HBV AND HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS**

in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS) or Hepatitis B Virus (HBV) or Hepatitis C Virus (HCV).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OR HBV OR HCV ON SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS.**

Personal Protection: Clean-up must always be done wearing protective gloves, gowns, masks, and eye protection.
Cleaning Procedure: Blood and other body fluids containing HIV or HBV or HCV must be thoroughly cleaned from surfaces and objects before application of ProteX Disinfectant Spray.

Contact Time: Leave surface wet for 1 minute (60 seconds) for HIV-1 and 10 minutes for HBV and HCV. Use a 10 minute contact time for disinfection against all other viruses, bacteria and fungi claimed.

Disposal of Infectious Material: Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Caution. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing the eye.

Call a poison control center or doctor for treatment advice. Have the container or label with you when calling a poison control center or doctor, or going for treatment. For general information on product use, etc., call the National Pesticides Information Center at 1-800-858-7378. You may also contact the poison control center at 1-800-222-1222 for emergency medical treatment information.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage:
Open dumping is prohibited. Store in original container in areas inaccessible to children.

Container Disposal:
Nonrefillable container. Do not reuse or refill this container except as described in the directions for use. Triple rinse or equivalent. Offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
