The action of Patco Disinfectant Restroom Cleaner is due to a combination of quaternary ammonium disinfectant, a cleaner and synergizing builders.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Patco Disinfectant Restroom Cleaner is a concentrate and must be diluted before use. For normal cleaning and disinfecting, use 2 to 4 ounces per gallon of water. Floors must be mopped with this solution, using only clean rags. Other hard surfaces: wipe or scrub clean, or use hand scrub brush. Wear rubber or plastic gloves while hand scrubbing and rinsing.

- Use at 4 oz. per gallon to kill Pseudomonas aeruginosa.
- Use at 2 oz. per gallon to kill Staphylococcus aureus and Salmonella choleraesuis.

Treated surfaces must remain wet for 10 minutes. Rinsability, moderate foam height and synergized cleaning make Patco Disinfectant Restroom Cleaner effective on sealed hard non-porous surfaces including composite, terrazzo and marble. Patco Disinfectant Restroom Cleaner is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**FIRST AID**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**
Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Harmful if swallowed or absorbed through the skin. Wear protective eyewear (goggles, face shield or safety glasses), protective clothing and protective gloves (rubber, chemical resistant) when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**STORAGE AND DISPOSAL**

**PESTICIDE STORAGE:** This product must be kept under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

- Do not contaminate water, food, or feed by storage or disposal.
- Open dumping is prohibited.
- Do not reuse empty container.
- Store in a dry place no lower in temperature than 50°F, or higher than 120°F.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instruction, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest E.P.A. Regional Office for guidance.

**CONTAINER DISPOSAL:** NONREFILLABLE CONTAINER. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ½ full with water and recap. Shake for 10 seconds. Pour rinsate into equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available.

**ACTIVE INGREDIENTS:**

- n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides ........................................ 1.65%
- n-Alkyl (88% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides......................................................... 1.65%
