**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Use Sites: In and around structures, including, but not limited to, residential, multi-family, commercial, industrial, municipal, institutional, research, recreational, health care, educational, daycare, hospitality and agricultural buildings; and other man-made structures, garages, transport vehicles, sewers, animal rearing and handling establishments; and food handling and food processing establishments.

Indoor Use: Results will be best if spilled food and other debris are cleaned up before applying bait. Apply bait in small spots about ¼" in diameter. Bait can also be applied in thin lines if appropriate. For most infestations, applications should range from 10 to 20 spots per 100 square feet. Use the higher number of spots when infestations are heavy and/or when roaches are being primarily in wall voids or other inaccessible areas. Smaller, more frequent spots are better than occasional large spots.

Outdoor Use: Apply bait on the outside surfaces of buildings and other structures, as well as in crawlspaces, attic and other voids. Porches, garages, sheds, AC units and other outbuildings; fences or walls may also need treatment. Pay particular attention to cracks where roaches may enter buildings and treat those areas. These areas include but aren’t limited to cracks around windows, doors, eaves and soffits, expansion joints, and areas where lines or pipes enter buildings. Under siding and masonry are also attractive areas for insects to hide. Apply bait in spots or lines as indicated for indoor baiting.

**Storage and Disposal**

Do not contaminate water, food or feed by storage or disposal. Store in a dry place. Do not store where children or animals may gain access. Disposal: If empty, Non-refillable container. Do not reuse this container. Place in trash or offer for recycling if available. If partly filled; Call your local solid waste agency or 1-800-CLEANUP which is managed as a public-private partnership.

**PRECAUTIONARY STATEMENTS**

Hazards to Humans and Domestic Animals:

**CAUTION:** Causes slight skin irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco or using the toilet.

**Warranty Limitations and Disclaimer**

To the extent consistent with applicable law, seller makes no warranty expressed or implied, concerning the use of this product other than as indicated on the label. Buyer accepts this material subject to these terms, and assumes all risk of usage and handling except when used or handled in accordance with this label. To the extent consistent with applicable law, there are no expressed or implied warranties of merchantability or fitness for any particular purpose, except as specifically stated herein. Manufacturer shall not be liable for any consequential damages based on the use of the product.

**Ingredients**

- Active Ingredient: Imidacloprid
- Other Ingredients: 
- Total: 100.00%

**Labeling**

For Indoor and Outdoor Use • Ready-to-Use Bait

**Integrated Pest Management program.**

Food Processing and Handling Establishments, including Federally-Inspected Food Plants. In food areas, including serving areas while the establishment is in operation, only apply bait in cracks, crevices, and other inaccessible areas or in tamper-resistant bait stations. Follow above directions for crack and crevice placement. Avoid contamination of food and foodstuffs. Never apply bait directly to a surface where food is stored, prepared or served. Any bait that is left visible after treatment must be washed up.

Outdoor Use: Apply bait on the outside surfaces of buildings and other structures, as well as in crawlspaces, attic and other voids. Porches, garages, sheds, AC units and other outbuildings; fences or walls may also need treatment. Pay particular attention to cracks where roaches may enter buildings and treat those areas. These areas include but aren’t limited to cracks around windows, doors, eaves and soffits, expansion joints, and areas where lines or pipes enter buildings. Under siding and masonry are also attractive areas for insects to hide. Apply bait in spots or lines as indicated for indoor baiting.

Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Store in a dry place. Do not store where children or animals may gain access. Disposal: If empty. Non-refillable container. Do not reuse this container. Place in trash or offer for recycling if available. If partly filled; Call your local solid waste agency or 1-800-CLEANUP which is managed as a public-private partnership.
