Pro-Line® VINYL COPPER ANTIFOULING PAINT

577-C-02 BLACK

FOR PROTECTING UNDERWATER HULL SURFACES FROM MARINE FOULING

577-CA-03
577-NJ-02
577-VA-01

EPA Est. No. 577-551
EPA Reg. No. 1088C-02 BLACK

SAFETY INFORMATION

Do not contaminate water, food or land with this product.

DIRECTIONS FOR USE

Note to Physician

DIRECTIONS FOR USE

Pro-Line® VINYL COPPER ANTIFOULING PAINT is designed to be applied at 3 to 5 dry mils or 5 to 8 wet mils per coat. If anti-fouling paint is over 2 hour minimum, if spray applied. Otherwise, 4 hour minimum. No maximum time. Use caution. Avoid storage and usage near food and feed products. When used in confined areas or while spraying and/or sanding boat surface, wear a mask or a respirator jointly approved by the Mining Enforcement and Safety Administration and the National Institute for Occupational Safety and Health, under the provisions of 30 CFR 11.

PHYSICAL OR CHEMICAL HAZARDS

WARNING TO THE USER: FLATMENDE® FLASH POINT APPROXIMATELY 85°F. Keep away from heat and open flame. Pesticide, container or rinse solution that cannot be used according to label prohibition. Contains petroleum distillate - vomiting may cause aspiration pneumonia.

DELAYED EFFECTS FROM LONG TERM OVEREXPOSURE: These products are not for use on aluminum unless a minimum of 15 dry mils of epoxy primer is used and a proper amount of zinc anodes. For more information contact your Pro-Line® Marine Finishes technical representative.

STORAGE AND DISPOSAL

Pro-Line® VINYL COPPER ANTIFOULING PAINT

Additional safety information can be found at the User Information Sheet that is part of the original container.

Caution: Causes eye irritation. Harmful if absorbed through skin.

DISCARD OF CONTAMINATED WASTE:

These products are for use in fresh and salt waters. 3/15

DIRECTIONS FOR USE

Prepare surface as per SOPs or MOPs Standards, such as SOPC, MOPC, MOPS, MOPZ, NACAL, GEM, 5-10-15-20, Surface Profile Final-1.5-3. After surface preparation apply Pro-Line® Finishes 300 Series, 400 Series, 500 Series, or 4018, giving a total dry mil thickness of at least 30 mils over the treated area and allowing the next coating system 4 hours minimum after last coat of anti-fouling paints (overnight is recommended).

WARNING TO THE USER: FLATMENDE® FLASH POINT APPROXIMATELY 85°F. Keep away from heat and open flame. Pesticide, container or rinse solution that cannot be used according to label prohibition.

This product is toxic in preventing marine growth, such as barnacles, bippus, etc. Contains used in fresh and salt water only.

CAUTION: THIS PRODUCT IS NOT FOR USE ON ALUMINUM.
